ary 1920.

--It is notified for general information that British troops arriving in India will receive pay converted at 1s. 4d. the rupee from the date of disembarkation only, any credit balance and voyage pay being converted at the official rate of exchange.

*The concession hitherto enjoyed by officers and men arriving in India from Europe of being allowed to exchange Bank of England and British Treasury notes at Rs 15 per pound up to a limit of £30 for officers and £2 for men is withdrawn from 31st January 1920.

81. Leave.—The undermentioned officer is granted leave out of India :—Colonel (temporary Brigadier-General) W. C.

Black, Indian Army, Military Secretary to His Excellency the Commander-in-Chief in India, for 3 months (the first 60 days' special war leave and the next 30 days' privilege leave)

The undermentioned officer is granted leave out of India :—Brevet-Colonel (temporary Brigadier-General) H. **Isacke,** C.M.G., British Service, temporary Director of Military Training, General Staff Branch, Army Headquarters, for 152 days' combined leave (the first 60 days' special war leave, the next 90 days' privilege leave and the remainder furlough).

82. Furlough and Leave.—The undermentioned warrant officer is granted leave out of India under the leave rules of 1889 :—

Conductor **G. Evans,** India Miscellaneous List, combined leave for six months on private affairs (the first 60 days' special war leave followed by 90 days' privilege leave and one month's furlough).

10th Feb.
1920.

83. Furlough and Leave—Officers.—*Privilege and After War Leave for officers holding temporary staff appointments.*—As some doubt has arisen in connection with

A G.-019334-(A. G.-5). the grant of leave to officers holding temporary appointments, it must be clearly understood that an officer holding a temporary staff appointment, or who has not been confirmed in his appointment, can only, as a rule, be granted After War leave from that appointment.

If, however, local arrangements can be made for the carrying out of his duties, and provided that the appointment continues to exist, Privilege or other leave may be granted, either by itself or in combination with After War leave; but in this case the officer carrying out the duties of the absentee, will not be entitled to any staff pay in addition to that of his own appointment during the period of Privilege leave.

2. It will be seen therefore that a staff officer to whom After War leave, or leave in continuation of After War leave is to be granted, must, if he is succeeded, vacate his staff appointment on the date following that of the expiration of the After War leave, if such is taken, otherwise from the date of proceeding on leave. In this connection attention is drawn to memorandum No 019590-10 (A. G.-5), dated the 16th October 1919.

An officer appointed to succeed the officer who has proceeded on leave will, from the date of the latter's vacating the appointment, be eligible for the staff pay of the appointment and the grant of any higher rank admissible.

In all cases the provisions of paragraph 155, Army Regulations, India, Volume II, are to be strictly adhered to.

N. B.—The term "Staff Officer" as used throughout the above is held to include General Officers Commanding.

84. Accounts—Ordnance stores and clothing.—With reference to Army Regulations, India, Volume II, paragraph 181-B, no ordnance stores or clothing drawn at arsenals, ordnance and clothing depôts by units dependent will be removed until the receipt vouchers for the stores, duly signed by the officer authorized to sign such vouchers, have been received.

dated 27th August 1919, the Indian

to Army Headquarters that some

Given at Our Court at St. James's
this 21st day of November, 1919,
in the 10th year of Our Reign.

By His Majesty's Command,
WINSTON S. CHURCHILL.

106. Pay and Allowances.—An amendment to the Rules and Regulations of the Indian Defence Force regarding detention allowance is published as an annexure to this Order. 106
17th Feb.
1920.

107. Accounts.—As it is necessary that expenditure belonging to the current financial year should be adjusted in the accounts before the 31st March 1920, all officers concerned are requested to see that claims on account of the Military Supply Accounts are submitted in sufficient time to admit of their payment before the 31st March 1920.

2. Persons to whom cheques are issued during March 1920, should be instructed to present them for payment in that month and except in cases in which this is necessary no cheques should be drawn towards the close of the month unless they are likely to be cashed before the 31st March 1920.

It is notified for information that the accounts of Indian units which have proceeded or M. A. G -1762 An which will proceed to Mesopotamia for garrison duty on a peace footing will for the present be prepared and maintained by the Field Controller of Military Accounts, Poona, in the same way as if the units are on field service. The following will be the main features of the procedure authorised :—

- (i) The accounts of Indian rank and file will be prepared quarterly
- (ii) The accounts of British officers will be kept on the present ledger system and family allotments paid by the Field Controller of Military Accounts, Poona.
- (iii) Family allotments of men will be paid as laid down in India Army Order 15 of 1919.
- (iv) Expatriation allowance will be paid to the men in addition to the six-monthly bonus without any other field service concessions.

17th Feb.
1920.

(b) For the purpose of deciding whether any man re-enlisting under Army Order 4 of 1919 would have had the claim referred to in paragraph 5 (f) of that Army Order to re-engage if he had continued to serve on his former attestation instead of re-enlisting he will be allowed to aggregate the service rendered on his re-enlistment and the service rendered on the enlistment from which he was discharged on re-enlisting under Army Order 4 of 1919 and to disregard entirely the fact that a technical break in his service has occurred. If such a man by reckoning his service as continuous in this way would have a claim to re-engage then he will be allowed if he desires to remain in the service to complete 21 years for pension by extending the term of his enlistment under Section 78 (1) (c) of the Army Act.

(c) Soldiers re-enlisting under Army Order 4 of 1919 who even if they had continued to serve on their present attestations instead of re-enlisting would have had no claim to re-engage at the termination of the period of their re-enlistment will be subject to the conditions applicable to soldiers serving on an engagement other than a regular normal engagement set out in paragraph 3 below.

3. Soldiers serving on an engagement *other than a regular normal engagement* have no claim of any sort or kind to extend or re-engage. If such men re-enlist under Army Order 4 of 1919 and on completion of the period for which they so re-enlisted desire to extend their service to complete 12 years with the colours and subsequently to re-engage to complete 21 years' service for pension they will if then recommended by their commanding officers and provided the interests of the army at the time are such as to render their retention in it desirable be *permitted* so to extend or re-engage under such regulations and at such rates of pay and allowances as may be in force at the time of application. In the event of their being permitted all service with the colours subsequent to the 4th August, 1914, will count as qualifying service for pension and towards the completion of their engagement.

4. (a) Substantive ranks only are recognized in connection with this Army Order.

(b) It must be clearly understood that men extending their colour service under paragraphs 262 and 263, King's Regulations, or re-engaging under paragraph 264, King's Regulations or Army Order 49 of 1916, have no claim to any bounty offered to men re-enlisting under Army Order 4 of

1919, that they must in all cases be passed as medically fit for service, and that, except in the case of non-commissioned officers who have a right to extend their colour service or to re-engage under paragraphs 263 and 264, King's Regulations (*vide* footnote to paragraph 2 (a) of this Army Order), efficiency and their commanding officer's approval are necessary conditions.

(c) Any cases of men not covered by the preceding paragraphs who are recommended for special consideration may be submitted to the War Office.

111. Dress—British Officers.—With reference to India Army Order No 40 of 1919, 23029 (Q. M. G. S-B). the stock of Bedford cord and Whipcord referred to therein is now exhausted and payment indents for this material cannot therefore be complied with by the Officer in charge Clothing Depot, Bombay.

112. Mechanical Transport—Technical Accounts and Storekeeping.—2626 (Q. M. G. 17-M. 1.) It has come to notice that several Mechanical Transport units and formations are not complying with memorandum No 1521—41-Q-7-M. T., i.e., "Instructions for keeping Technical Accounts and Company Records of Mechanical Transport Companies, India," issued from Army Headquarters, July 1919. Steps will at once be taken to ensure that the system contained in these instructions is immediately put into full operation and kept up to date.

113. Demobilization—Indian Army.—The following amendments are made to 016053 (A. G. Mob. 2-1). Demobilization Orders (India), General Instructions, 1919 (Provisional) :—

Chapter XI—The present paragraph 514 is cancelled and the following substituted :—" 514. The pay of British Service officers in receipt of Indian rates of pay on demobilization is shown in Army Instruction (India) No. 30 of 1920."

- (is) Officers duly certified by the Ministry of Labour before 1st February 1919, on Army Form Z-32, as civil demobilizers or pivotal men, or officers whose special release has been recommended by that Ministry on Army Form Z-56 excepting those whose retention in the army is essential for demobilization purposes.
- (iis) Officers whose release on extreme compassionate grounds is approved by the Army Council
- (iiv) Officers whose claim to return to their pre-war homes or business overseas have been or may be approved by the Officer in charge Repatriation Records, Winchester, on Army Form Z-6.
- (v) Officers over 51 years of age

All non-regular officers who are not required for the Armies of Occupation will be demobilized or have their temporary commissions terminated.

155. Officers proceeding overseas.—The following pamphlets have been prepared in the General Staff Branch at Army Headquarters and issued to General Officers Commanding, Divisions, etc., from whom copies can be obtained on application:—

6515 (G S) Notes for officers proceeding to Mesopotamia.

Notes for officers proceeding to Egypt and Palestine.

Notes for officers proceeding to Black Sea Force (under revision).

Notes for officers proceeding to Persia

Notes for officers proceeding to East Persia

2. Instances have lately been brought to notice of officers joining formations stationed outside India ill-equipped with articles necessary for their comfort. As the notes contain information on the subject of officers' requirements in the countries mentioned, a careful perusal by those detailed to proceed overseas will save them possible discomfort and unnecessary expenditure.

2nd Mar.
1920.

156. Rewards.—It has been brought to the notice of the Government of India that Officers Commanding units are in the habit of forwarding to the Civil Authorities, particularly in the Punjab, petitions for grants of land from serving and pensioned Indian soldiers.

The selection of grantees for land, or other rewards, up to the number of rewards allotted to each unit, will rest with Officers Commanding units, and no useful purpose is served in forwarding these petitions to higher authorities. On the contrary, pensioners and officers commanding units in submitting such applications to the Civil Authorities only cause a great deal of unnecessary correspondence.

157. Queen Alexandra's Military Nursing Service for India—Resignation.—Nursing Sister Miss. D. Webley has been permitted to resign the service with effect from the 29th February 1920.

158. Military Training.—In consequence of the necessity for preserving the present organisation of infantry units into companies, platoons and sections, the general rules for equalising and sizing in the formation of companies laid down in paragraph 55 (c), Chapter IV, of Ceremonial, 1912, will be held in abeyance in India until further orders, except for Guards of Honour.

159. Drill and Instruction.—The drill for dismounted men of heavy batteries, Royal Garrison Artillery in India, will be that laid down for Infantry in Infantry Training, 1914.

160. Demobilization—Indian Army.—With reference to Army Instruction (India) No. 35, dated 20th January 1920.

The provisional establishments laid down in Adjutant General in India's letter No. 031854-110 (A. G.-Mob.-2-I),

9th Mar.
1920.

Army Reserve, discharged soldiers (including special reservists), and disembodied men of the Territorial Force will be permitted to re-enlist into the Regular Army on the following conditions:—

1. Enlistments will be carried out on Army Form B 2515, and will be for periods of 2, 3 or 4 years with the colours—no reserve service.

2. Age 18 to 37 years.

3. Men can only be accepted for service in a corps open for recruiting, and in an arm or branch in which they previously served; all men must have been 'fully' trained, have completed at least six months' service with the colours on their former engagement in the arm or branch selected (in the case of special reservists, or men of the Territorial Force, such service must have been mobilized or embodied service) and be medically fit.

4. A man with 17 or more years' service counting towards pension will be required to re-enlist for the full period of four years and will not be allowed to take his discharge until he has completed that period.

It should be remembered that under the terms of the Royal Warrant for the pay, &c., of the Army, a private soldier must have fourteen years' qualifying service on completing twenty-one years' service to be entitled to pension; and a non-commissioned officer must have three years' continuous qualifying service as such immediately preceding the completion of twenty-one years' service to qualify him for a non-commissioned officer's pension. Intending recruits should be warned on these points.

5. (i) A man re-enlisting under this Army Order will receive no bounty and will draw the ordinary rates of pay of the corps in which he re-enlists, as laid down in the Royal Warrant for pay, &c., and increased by Army Order 1 of 1918. He will also receive the war bonus referred to in Army Order 54 of 1919, for so long as the grant is continued to men serving in the Armies of Occupation, Dependents' allowances (including special parents' allowances), if previously in payment, will be resumed.

(ii) Married men may be accepted and their families will receive separation allowance at current rates or other privileges to which men enlisting under Army Order IX of 20th

March, 1919 (Army Order 124 of 1919) are entitled. Separation allowance will not, however, be payable in respect of any man who marries after re-enlistment unless and until he is admitted to the married establishment.

187

9th Mar
1920.

(iii) Men who enlist under this Army Order will not be eligible for any grants under the Regulations of the Special Grants' Committee of the Ministry of Pensions or the Military Service (Civil Liabilities) Committee.

6. *Payment of Separation Allowance—Procedure—(i)* Army Form D-4150 or Army Form O-1838B, as the case may be, will be completed for every man on re-enlistment, and will be forwarded by the recruiting officer to the regimental paymaster concerned.

(ii) Upon receipt of the form of claim the regimental paymaster will at once take steps to resume payment of the separation allowance previously in issue, subject to any necessary modification on account of change in the composition of the family since the man's demobilization or discharge.

(iii) As payment was previously being made by another paymaster (or Territorial Force Association), steps will immediately be taken to obtain the necessary documents and to ascertain the previous rate of payment. In the case of married men, payment will be resumed provisionally, pending receipt of the transfer documents; in the case of unmarried men, however, the documents will be awaited and scrutinised before any payment is made.

(iv) Where a claim is made by a man who has married since demobilization or discharge, the procedure laid down in paragraphs 89-90, Separation Allowance Regulations, 1916, will be followed.

7 Applications for special enlistment referred to in paragraph 92, Recruiting Regulations, 1912, will not be required in the case of married men or in the case of any qualified men enlisting under this Army Order, except men wishing to join the Royal Engineers for appointment as military mechanists which case, as required by sub-paragraph (c) of the Regulation quoted, will, as heretofore, be submitted to the War Office.

A notification of any re-enlistment carried out under this Army Order will be sent to officer i/c records of the

man's late corps as soon as he is finally approved, and, if not already discharged from Class "Z," Army Reserve, his discharge will be carried out as from the day preceding that on which he re-enlisted.

ARMY ORDER NO. 235 OF 1919.

V.—Re-enlistment of ex-soldiers for short periods. It has been decided to extend the conditions of enlistment under Army Order 155 of 1919 as follows:—

1. A limited number of men (including men who have not previously served, but who possess special qualifications) may be permitted to enlist for one year with the colours.
2. Corps open for recruiting under the above conditions, the age limit and physical standard required for the various corps, and any other special conditions will be notified from time to time in Recruiting Instructions and circulars.
3. All other conditions will be as laid down in Army Order 155 of 1919.
4. Attention is drawn to the fact that men with 17 or more years' service towards pension are required under Army Order 155 of 1919 to enlist for the full four years, and are not eligible to enlist for one year under this Army Order.

ARMY ORDER NO. 413 OF 1919.

Enlistment of men for 1, 2, 3 or 4 years.—It has been decided to amend further the conditions of enlistment under Army Order 155 of 1919 as follows:—

1. A limited number of men who have not previously served may be permitted to enlist for periods of 1, 2, 3 or 4 years with the colours in certain corps.
2. Corps open for recruiting under the above conditions, the age limit and physical standard required for the various corps, and any other special conditions will be notified from time to time in Recruiting Instructions and circulars.

9th Mar.
1920,

- 4 Dependants' allowance will in no case be resumed in respect of men who re-enlist for 1, 2, 3 or 4 years after the date of this Army Order.
- 5 Separation allowance will not be payable in respect of any man without previous service who enlists for 2, 3 or 4 years under this Army Order unless and until he is admitted to the married establishment

188. Educational Training.—Education will henceforward be an integral part of the training of the Army in India

66/1 (G S)

2 The administration of British and Indian Army Schools is transferred from the Adjutant General's Staff to the General Staff. Correspondence will be addressed accordingly

3 In British units educational training will be carried out in conformity with the principles laid down in 'Educational Training in British Units in India' $\frac{G S T}{61}$ — copies of which are being issued to all concerned by the Superintendent, Government Printing, Calcutta, from whom further copies may be obtained on demand as required

Attention will for the present be directed particularly to —

(a) Preparation for the Second Class Certificate of Education as prescribed by the Handbook for British Army Schools in India, 1911, Section V

(b) Instruction in the subjects of Group A *vide*

$\frac{G S T}{61}$, page 9

4 The interim educational training establishment of officers and sergeants together with Army schoolmasters will, pending the completion of details and organization, be regarded as members of a single service and will be employed under the orders of Officers Commanding

5. As regards Indian units, the details and organization necessary are under consideration and "General Regulations and a Suggested Table of Standards for Indian Army Schools, 1919" (obtainable from the Superintendent, Government Printing, Calcutta) are under revision, but in the meantime the provisions of these Regulations will be enforced and the attainment of the standards outlined will be regarded as an essential qualification for promotion to the ranks specified in the Tables; General Officers Commanding Brigades may, however, at their discretion, waive this requirement in special individual cases.

6. Programmes of training will invariably be so framed as to show the time devoted to educational training.

189. Ordnances, Q. F.—*Prohibition of repair by Deposit of Plastic, Metal.*—When scoring occurs in Q. F. ordnance and is sufficient to cause, 10592 (O. B.) cartridge cases to split, or difficulty in extraction, the instructions contained in paragraph 802, Regulations for Army Ordnance Services, Part II, 1014, Reprint-1916, will be carried out.

The repair of the face of the breech block, by the deposit of plastic metal, is prohibited.

Regulations for Magazines in India and Care of War Matériel, 1911, paragraph 850, will be amended accordingly.

190. Discharges—Indian Army.—With reference to paragraph 477, Army Regulations, India, Volume II, it has come to notice that in many cases the characters of Indian ranks are not recorded strictly in accordance with the instructions contained in the King's Regulations.

2. The military characters of Indian officers and other ranks must be expressed in the actual terms laid down in the King's Regulations.

Particular attention is drawn to the addition to paragraph 421; King's Regulations, published in Army Order

245 of 1918, which lays down that whenever a military character below "good" is awarded and the offences on which the character is assessed are of a purely military nature and not likely to be detrimental to the man's employment in civil life, a statement to that effect is to be recorded

3 On discharge, Indian ranks of not less than good character, who are desirous of being recommended for civil employment are to be furnished with India Army Form Y-1962. In this document, the character will be recorded in testimonial form

191. Works Battalions.—With reference to Army

233. Veterinary—Diseases.—*The responsibilities of regimental officers with regard to prevention of mange among army animals.*—1. It has been brought to notice that Officers Commanding Mounted Units and Transport Officers do not in many cases realize their responsibility as regards outbreaks of mange in animals under their charge. There is a dangerous and regrettable tendency to assume that the

233

3rd Mar.
1920.

Veterinary Officer, and the Veterinary Officer alone, is responsible for the freedom of the animals of a unit from mange. This is contrary to fact and leads to disaster. Mange may and does appear, with incredible swiftness, at a time when the Veterinary Officer is absent on other duty, and to adopt a policy of *laissez-faire* till he arrives is to give this insidious disease every opportunity to spread, as spread it surely will. Moreover, it is impracticable to expect a Veterinary Officer to inspect each animal in his veterinary charge, individually, every day. A medical officer in professional charge of a thousand men is not expected to achieve this tremendous daily task of individual inspection, but in his case he is assisted by the ability and readiness of a man to draw attention to his personal ailments. The Veterinary Officer has no such assistance and is therefore bound largely to rely upon decentralization, whereby regimental officers draw his attention to any departure from normal health of a given animal, and, in the case of mange, take necessary precautionary measures. The importance of mange is enormous in war. Its unchecked ravages will decimate the animals of an army and will hold up all mobilization. The symptoms of mange are clear and generally unmistakable, and are capable of being detected by any intelligent individual who will take pains to obtain from a veterinary officer a simple demonstration of the salient features of the disease. In order, however, that there may be no excuse for ignorance in the matter the following brief description of the disease is given.

2. *History*.—Mange is a highly contagious disease due to the presence of a microscopical insect parasite of the mite order, one principal variety of which leaves and propagates its species on the surface of the skin (*Psoroptic Mange*), and the other by burrowing tiny channels just under the surface (*Sarcoptic Mange*).

Both varieties are practically invisible to the naked eye, and both propagate their species by laying eggs.

3. *Infection*.—Infection is conveyed from animal to animal by transfer of the actual parasite, or of its eggs, through the agencies of physical contact, rugs, saddlery, grooming tools, bedding, etc.

Infection is greatly facilitated by dirt, hence units in which grooming is slack are notoriously liable to mange.

Mango in race horses and hunters where grooming is thorough is almost unknown. 233

23rd Mar.
1920.

4. *Symptoms*.—The first symptom is intense itchiness of the skin. The animal rubs himself vigorously against the nearest convenient object. In due course, chiefly as a direct result of such rubbing, a patch of hair is removed and the skin appears bare and often red in places from skin abrasion. If a patch of infected skin is rubbed hard with a piece of wood or a coin the animal manifests pleasure, twitching his nostrils and lips and stretching out his neck.

5. *Prevention*.—(a) The first fundamental principle is the immediate isolation of the animal together with all that pertains to him including rugs, saddlery, grooming tools and nosebag. Nothing should be overlooked.

(b) The next principle is identification and careful noting of the animals that have been in contact with the case, for the information of the Veterinary Officer.

(c) The third principle is cleansing and disinfection of the standing occupied by the case, all sweepings being burned or removed to a safe place.

(d) The fourth principle is information to the Veterinary Officer of all that has been done. The animal then ceases to be a source of danger pending verification or otherwise of the disease by the veterinary authorities.

6. If the regimental officer carries out the above principles, he will have done more towards the suppression of mange than all the veterinary science in the world can accomplish if these principles are neglected.

There is nothing in the practice of these principles beneath the dignity, or above the intelligence of any office and their exercise should be strictly enforced by all Commanding Officers.

234. *Followers*.—With reference to General Routine Orders (North-West Frontier Force) Nos 88, 89 and 352 of 1919, 035032 (A. G. 2-L), it has come to notice that enrolled private followers are being returned in the Followers' Central Depot of origin without being paid by their masters or entries being made in their field service books. In future officers commanding units will be held responsible that such payments are made in the field

234 and before Government enrolled private servants are returned to their parent depôt, a signed acquittance roll for each payment will be duly forwarded on date of payment, under registered cover, to the Officer Commanding, Followers' Central Depôt, concerned. The name of each depôt is known by the index letters entered before the servant's number in his field service book, which are as follows :—

Veterinary officers and Veterinary Assistants in charge of units will furnish periodical certificates of Fly Hunts, with results obtained, to the Deputy Assistant Director of Veterinary Services of the formation concerned, who will embody the same in the fortnightly return of contagious disease (India Army Form V-1750) to Army Headquarters through the usual channel.

272. Mechanical Transport.—Officers Command-

21680 (Q M G.-7-M. T.). ing, Mechanical Transport Units, are responsible that mechanical transport vehicles in their charge are economically maintained in a proper state of mechanical efficiency, and must satisfy themselves by personal supervision that a satisfactory system of inspection has been adopted in their unit.

2. The Officer Commanding, assisted by the Workshop Officer, is responsible for the efficient instruction of Section Officers and non-commissioned officers in the care and maintenance of vehicles in their charge.

3. Section Officers must acquaint themselves with all the details contained in the books of instructions issued by the manufacturers.

They must have a practical knowledge of all the important defects which have to be guarded against and the precautions to be taken with the particular make or makes of lorries under their charge.

4. Section non-commissioned officers should inspect in detail each vehicle under their charge at least once a week or on the report from the driver in charge that the vehicle is not giving satisfaction. Inspection reports made out by them should be handed to the Section Officers, who should themselves, by a detailed personal inspection, verify these by carefully examining each vehicle at least once a month. All defects should be carefully noted down and rectified as soon as possible by the drivers, who should always be present during an inspection, or by the workshop staff if the former are unable to undertake the work.

5. An inspection table in manuscript will be kept by Section Officers showing the Broad Arrow number of each vehicle, and the date upon which it was inspected, and will be submitted to the Commanding Officer at the commencement of each month.

6. Drivers will ensure, by daily inspection, that all fittings, bolts and nuts, etc., are properly tight and up to their work, and that their vehicles are properly lubricated. All minor repairs should be undertaken by the drivers themselves, so that the time of the workshop staff may be free to deal with the heavier work, but nothing in the nature of an overhaul should be undertaken by drivers in the lorry lines.

7. The foregoing instructions will be read in conjunction with the pamphlet entitled "Points to be observed during the inspection of mechanical transport vehicles" which has been issued to all concerned.

273. Hindustani qualifications for staff employ.—(i) Owing to abnormal conditions due to the war the regulations contained in Army Regulations, India, Volume II, paragraph 289 (iii), and Army Regulations, India, Volume I, paragraph 28, which require that an officer to be eligible for employment on the staff in India and to draw the pay of the appointment must have passed the Higher Standard Hindustani test, have been in abeyance for some time. His Excellency the Commander-in-Chief considers it highly important, however, that staff officers who have not already done so should qualify in the language as early as possible. Pending the revival of the regulations referred to above all such officers appointed to the staff in India subsequent to the date of this order will be required to pass the Lower Standard Hindustani, or such other test as may be instituted in lieu thereof, within one year of appointment and the Higher Standard Hindustani, or such other test as may be instituted in lieu thereof, within two years of appointment.

(ii) The above will not apply to those British Service *Army Department letter officers now serving on the staff No. 13031, dated 24th who have been given* two years from September 1914. date of arrival in India in which to qualify in Hindustani by the Higher Standard, or such other test as may be instituted in lieu thereof.

ANNEXURE TO INDIA ARMY ORDER No. 271 of 1920.

Army Order No. 742 of 1919 is re-published—

ARMY ORDER No. 742, DATED THE 23RD SEPTEMBER 1919.

Veterinary—Diseases.—Surra in Camels—

20512 (Q. M. G. 11). **Control of—**As biting flies of the

Order Tabanidæ are concerned i

the transmission of the disease Surra from affected to healthy animals, it is considered that reduction of the prevalence of the disease and mortality arising from it can very materially be effected by a systematic crusade directed towards the destruction of these flies, their eggs and their larvæ during the fly season.

2. It has been decided in the first instance to conduct a "Fly Survey" in the Northern and North-western parts of India where Surra chiefly prevails and to map out "Surra Areas." This survey will be undertaken under the guidance of the Imperial Pathological Entomologist to the Government of India whose Head Office is at Pusa, Behar, and any evidence as to the existence of "Biting Fly" areas, stations or camps occupied by troops should be sent to him through Administrative Veterinary Officers of Formations concerned.

3. Organised "Fly Hunts" will be instituted by Commanding Officers of Camel Corps, during the "Fly Season"—say from the middle of May to the middle of October—and periodically carried out by them at all watering places used by camels and within a mile of the same whether such watering places are at permanent camps, or at temporary camps on a line of march route.

4. "Fly Hunts" will be directed towards (a) eggs, (b) flies and (c) larvæ, a sufficient number of sarvans being detailed for the purpose, acting under the guidance of the Veterinary Assistants of the unit concerned

5. For identification the following information is given :—

(a) The female tabanidæ lay their eggs on the under surface of blades of grass growing along the edges of streams and the margins of wheels and pools. The eggs are laid in brown roundish masses about the size of an ordinary pea, each

mass containing from 80 to 100 eggs. They are very easily detected and the importance of their collection and destruction by burning will be fully realised. When eggs are hatched out they appear on the blades of grass as shells only.

- (b) Larvæ from the hatched-out eggs drop from the blades of grass into the soft wet earth round the edges of streams, pools, wheels, etc., and can be found by lightly digging or disturbing the surface layers of earth after the manner of finding "grubs" of other flies in garden earth, manure, or refuse. The larvæ of the tabanidæ are yellowish-white in colour, elongated and cylindrical, $\frac{3}{4}$ inch to $1\frac{1}{4}$ inches in length, about $\frac{1}{4}$ inch in diameter, and have a number of fleshy rings or bands round the body.
- (c) Tabanidæ flies are large and of stout build, varying in size from $\frac{1}{2}$ inch to 1 inch in length. The head and eyes are large. The thorax and abdomen are clothed with short hair, and often coarsely striped or banded. The abdomen has seven visible segments. The female flies only are concerned in piercing and blood sucking, and as they do not operate as a rule beyond a mile from water, where they lay their eggs or in other words practise their mother-hood, they are usually to be found within that radius, or attacking animals within that distance.

6. It is realised that the "Fly Season" of this year is now nearly over, and that proper measures for destruction cannot be systematically put in force until next season, but there is still time to do a certain amount this season. Officers Commanding Camel Corps will, therefore, adopt the above measures without delay.

7. A record of "Fly Hunts" will be kept by units concerned.

Offg. Adjutant-General in India.

Major R. R. Armstrong, I.M.S., for eight months
14145 (D. M. S. 1). (the first sixty days special leave and the next ninety days' privilege leave).

286. Accounts.—It has again been brought to notice that the accounts maintained by units and depôts are in many cases still in a state of much confusion. In this connection the attention of General Officers Commanding, Divisions and Independent Brigades, is invited to the importance of complying to the orders contained in Adjutant General in India's letter No 017450-1 (A. G.-6),*
* Repeated below. dated the 31st March 1919.

The greatest care should be exercised in future by all concerned to ensure that the orders referred to above are complied with in every respect.

Accounts No 017450-1 (A. G.-6), dated the 31st March 1919.

From The Adjutant General in India.

To—The General Officers Commanding Divisions and Independent Brigades.

I am directed to state that it has been brought to notice that the accounts maintained by units and depôts are in some cases in a state of much confusion, owing to failure on the part of regimental authorities to keep the books written up to date and maintain the vouchers in proper order. Unless the

20th Apl.
1920.

accounts are correct, it is obvious that the orders connected with their adjustment on demobilization will be nullified.

The half-mounting accounts of all units should have been completed up to the 30th September 1918 and the balances held in suspense pending further orders, *vide* paragraph 1 of Army Instruction (India) 1081, and it should be no easy matter to settle up each individual account under Army Instruction (India) 1137 of 1918. It is known however that in some cases this has not been done and that the half-mounting accounts have been allowed to lapse into a state of confusion by the omission to debit men with articles or clothing and necessaries as they were issued.

It is therefore requested that General Officers Commanding will at once take steps to ascertain the units and depôts whose accounts, books, etc., are in such a state as to prevent the proper and speedy adjustment of individual accounts and public and regimental fund accounts. In all such cases one officer (two if considered desirable) and a few regimental clerks (or temporary men specially engaged if absolutely necessary) should be detailed for duty exclusively on the accounts and they should be retained (even if they are in excess of the strength to which a unit is to be reduced) until a reasonable adjustment of the accounts has been effected.

If suitable officers cannot be found from the units concerned, General Officers Commanding are empowered to detail them from other units.

When the settlement of accounts presents any special difficulty, the assistance of the Military Accounts Department should be invoked with delay.

The responsibility of Brigade Commanders for the correct maintenance of these accounts should be impressed upon them. The matter is very urgent as it may tend to hamper demobilization, and it is requested that very early action be taken in accordance with the above instructions.

115/Gen. No./1410 (A. G.-1).

28th February 1920.

Sir,

I am commanded by the Army Council to advert to Army Order 44 of 1920, revising to date King's Regulations, Section VII (4), regarding the conditions under which warrant officers, non-commissioned officers and men may be transferred from one corps of the army to another.

I am to say that henceforth all transfers within the Army will be carried out in accordance with the provisions of King's Regulations.

314
27th Apl.
1920.

In this connection, I am to inform you that large deficiencies exist in the various administrative corps of the Army particularly in the Royal Engineers (Signals), Royal Army Service Corps (Mechanical Transport), Royal Army Medical Corps, and Royal Army Ordnance Corps, both in their Home and overseas establishments, and although everything possible is being done in order to recruit the numbers of men required, it will not in all probability be possible to meet all the requirements from this source alone.

I am therefore to request that you will take steps to encourage the voluntary transfer to such corps of regular or re-enlisted soldiers, serving in fighting arms who are skilled in an Army trade, or who are suitable for training in a trade, particularly the former.

Officers Commanding units of fighting arms should be instructed to use every possible endeavour to persuade skilled or partially skilled tradesmen serving under their command to volunteer for transfer to a corps, where their employment will be of the greatest benefit to the efficiency of the service as a whole

I am,

Sir,

Your obedient servant,

B. B. CUBITT.

themselves out of their own funds with khaki hosiery which will allow of their being turned up if "shorts" are worn in cold weather.

342. Staff College.—Entrance Examination.—The following preliminary notice, pending the issue of the detailed syllabus, etc., is issued for the information of officers:—

1. Officers will first enter the Staff College, Camberley, 6387 (G. S.), in January 1922, and the Staff College, Quetta, in February 1922, as a result of an examination held during 1921. The date of the examination, together with the number of vacancies open for nomination and competition will be notified later.

2. The examination will be divided into two parts:—

Part I—Obligatory subjects.

Part II—Optional subjects.

Every successful candidate, whether he enters the College by nomination or competition, must qualify in Part I.

3. Part I—Obligatory subjects may be divided into—

(a) *Training for war*

Four papers will be set on the subject matter contained in the Field Service Regulations and the various training manuals. Candidates may be set tactical problems on maps, both British and foreign.

Questions may call for examples from military history illustrating various operations of war. It should be noted that the syllabus does not contain a definite campaign to be studied. It is hoped that young officers will commence reading military history early in their career and will in this way be equipped in the subject when they reach the age to compete for the Staff College.

The question of training for all ranks in peace and war, including moral and hygiene, may form the subject of questions in these papers.

(b) *Organization and administration.*

Two papers to be set. Questions may call for a knowledge of the organization of our Army since December 1868, inclusive.

4th May
1920.

Candidates will be expected to know the general system of the organization and administration of the forces of the Empire and may be called upon to discuss questions of the day in these matters. A knowledge in outline will be expected as to the organization of the principal foreign armies.

These papers will include questions on Military Law as laid down in the Annual of Military Law and King's Regulations.

(c) *Imperial organization.*

Two papers will be set on this subject, which embraces a study of the Empire including its history, its various systems of government, its geography, its communications, its frontiers and its armed forces, prominence being given to the influence of foreign States on British strategy.

4 Part II—Optional subjects may be roughly grouped under—

Languages. Science. History.

These subjects are among those which are studied at almost every university in the Empire. Now that officers of the British Service can be seconded for a course at a university, it is felt that a young officer will be able to prepare for the examination while still a junior. It is under consideration to extend the provisions of Army Order 323 of 1919 so as to include officers of the Indian Army.

One paper in each of the following subjects will be set. A candidate may offer three or a less number of subjects:—

If three subjects are taken—

(a) One must be a language specified under (a) below.

(b) Not more than two languages may be offered.

If two subjects are taken—

(c) Both may be languages specified under (a)

(d) Both may not be languages specified under (b)

(e) It is not compulsory to offer a language specified under (a)

If one subject is taken—

(f) It may be chosen from any subject from (a) to (k)

342

14th May
1920.

The subjects are:—

- (a) Languages: French, German, Russian. (Any two may be taken)
- (b) Languages; Italian, Dutch (S. African), Danish, Norwegian, Polish, Swedish, Urdu, Turkish, Modern Greek, Spanish, Arabic, Portuguese, Swahili, Hausa, Chinese, Japanese, Persian, Rumanian, Czech, Bulgarian and Serbo-Croatian. (One language only may be taken from this category.)
- (c) Principles of business organization and administration.
- (d) Political economy.
- (e) Elements of Engineering.
- (f) Chemistry.
- (g) Physics.
- (h) The History of Europe and the United States of America since 1848.
- (i) The History of British India.
- (j) Movements by road, rail, cross-country, water; air.
- (k) Mathematics, (approximate to the standard of that of an honour degree at a University);

5. All of the eight obligatory papers have the same maximum—1,000 marks. In order to qualify, a candidate must obtain 30 per cent. on each of the obligatory papers and at least 50 per cent. in the total of each of the three subjects in the obligatory part.

The optional papers will be marked on a basis of 1,000 marks as the maximum for each. From the marks of each officer's paper or papers will be deducted 300, the remainder being credited to the total. Thus, if an officer took—

French, and was awarded 500 marks, he would count	200
German, and was awarded 1,000 marks, he would count	700
Political economy, and was awarded 250 marks, he would count	0
Total to count	900

6 Detailed syllabuses of the subjects are being prepared and will be issued shortly

342

4th May
1920.

7 To sum up the examination has been designed with the object of demanding a high standard of professional knowledge and at the same time giving a wide scope in optional subjects which officers may study during the years between joining the service and presenting themselves at the examination. With the view also of encouraging study throughout the officer's early career, credit will be given to a candidate who—

(a) Presents at the examination any foreign languages in which he is a first class interpreter (on account of his having passed in oral test)

(b) Gains a special certificate in his examination for promotion as a Lieutenant to Captain.

Details on the above points will be issued shortly.

NNEXURE TO INDIA ARMY ORDER,
Nu. 464 of 1920

ARMY ORDER 86 of 1920.

WAR OFFICE,
9th March, 1920.

Promotion from the ranks to combatant commissions as Second-Lieutenants.—The following regulations are issued in substitution of those issued with Army Order 135 of 1914, which was cancelled by Army Order 32 of 1915:—

1. A candidate for promotion from the ranks to a combatant commission as second-lieutenant must be unmarried and will not be accepted unless in opinion of the Army Council, he is in all respects suitable to hold a commission.*

2. He will be required to undergo a course of training of about one year's duration at an officer cadet school and to obtain a satisfactory report therefrom.

3. The first course of training at the school will commence in January 1922.

4. The number of candidates admitted to the school each year will vary according to the requirements of the Service. The number of vacancies available the following January will be announced in Army Orders of May each year.

5. Candidates for admission to the officer cadet school will be selected from those recommended on Army Form B. 2081 (reprinted 1920).

* For the present, candidates from the ranks will only be granted commissions in the Cavalry, Infantry and Royal Army Service Corps.

6. To be eligible for recommendation by his commanding officer a candidate must—

(a) Be medically fit (*see* the Appendix).

(b) Be in possession of a *Special Army Certificate of Education (for admission to the course commencing in January 1922 only, a candidate may be recommended for consideration if he possesses a First Class Army Certificate of Education).

(c) Have been an unpaid lance-corporal, or have held any higher rank for 6 months prior to 1st July of the year in which he is recommended.

(d) Be under 22 years † of age on 1st January of the year in which he is recommended.

The commanding officer and the officer commanding the candidate's squadron, battery or company must be able to certify that the candidate has shown promise of leadership in all branches of training, including both educational and recreational training and that his military knowledge and hearing are such as to warrant his being trained for a commission. They must also certify that they would be willing to accept him, when trained as a platoon, etc., commander in their unit.

The Brigade Commander will see the candidate and state his opinion as to his fitness and suitability. The General Officer Commanding the division (or equivalent formation) will then endorse the recommendation and forward it to the War Office (†).

* A candidate who has—

(i) qualified for admission to the Royal Military Academy, Royal Military College or the Royal Air Force Cadet College, or

(ii) passed the First Public Examination at the University of Oxford or the equivalent examination at any other approved university,

will be exempt from obtaining a special Army Certificate (reference should be made to the War Office to ascertain whether the candidate is so exempt).

† For admission to the school in 1922, the maximum age will be 24; in 1923 the maximum age will be 23, after which year it will be 22.

(‡) In India recommendations will be submitted to the Military Secretary, Army Headquarters, Simla, for onward transmission to the War Office.

7. Recommendations on Army Form B.-2081 (reprinted 1920) must be submitted so as to reach the War Office by 1st July in the year preceding the commencement of the course for which the candidate is recommended. If a recommendation sent from a distant part of the world is likely to arrive late owing to delay in the ocean mail, etc., the General Officer Commanding Division responsible for forwarding the application to the War Office should notify its despatch before 1st July to the Secretary, War Office, by cable. With this exception no recommendation received after 1st July will be entertained.

8. All recommendations received at the War Office will be considered together and a selection, up to the required number, will be made according to the merits of candidates. A reply will then be sent in each case and authority issued for the selected candidates to proceed to the school for the course commencing the following winter.

9. A revised edition of "Regulation under which non-commissioned officers and men of the Regular Army may be promoted to combatant commissions as second-lieutenants" will shortly be issued.

3 The candidate's height will be measured as follows. He will be placed against the standard with his feet together, and the weight thrown on the heels and not on the toes or

outside of the feet. He will stand erect without rigidity, and with the heels, calves, buttocks and shoulders touching the standard; the chin will be depressed to bring the vertex of the head level, under the horizontal bar, and the height will be recorded in inches and parts of an inch to quarters.

4. The candidate's chest will be measured as follows: He will be made to stand erect with his feet together, and to raise his arms over his head. The tape will be so adjusted round the chest, that its upper edge touches the inferior angles of the shoulder blades behind, and its lower edge the upper part of the nipples in front. The arms will then be lowered to hang loosely by the side, and care will be taken that the shoulders are not thrown upwards or backwards so as to displace the tape. The candidate will then be directed to take a deep inspiration several times, and the maximum expansion of the chest will be carefully noted.

The minimum and maximum will then be recovered in inches. $\frac{33}{35}$, $\frac{34}{35}$, &c. . .

In recording the measurements, fractions of less than half-an-inch should not be noted.

5. The candidate will also be weighed, and his weight recorded in pounds. Fractions of a pound should not be noted.

6. The regulations regarding the examination of eyesight are as follows:—

(a) A candidate will be considered fit if his vision—

Without the aid of glasses, is not less than 6·60 with each eye, provided that—

With the aid of glasses, if necessary, his vision is not less than 6·9 in one eye (R. or L.) and 6·18 in the other.

(b) A candidate will be considered fit if he has one eye (R. or L.) with vision of not less than 2·60, and with a good field of vision as tested by hand movements, provided that—

His vision in the other eye is 6·6, or not less than 6·12 without glasses and capable of correction to 6·6 with the aid of glasses.

(c) Each eye will be examined separately. The candidate will be required to read the tests in ordinary daylight.

(d) Inability to distinguish the principal colours will not be regarded as a cause for rejection, but the fact will be noted in the proceedings and the candidate will be informed.

(e) The degree of acuteness of vision of all candidates for commissions will be entered in the proceedings in the following manner.

V. R. =; with glasses =

V. L. =; with glasses =

(f) No relaxation of the standard of vision will be allowed.

7. The following additional points will then be observed :—

(a) That his hearing is good.

(b) That his speech is without impediment.

(c) That his teeth are in good order. Loss or decay of ten teeth will be considered a disqualification. Decayed teeth, if well filled, will be considered as sound. Non-erupted wisdom teeth should not be counted as deficient.

(d) That his chest is well formed and that his lungs and heart are sound.

(e) That he is not ruptured.

(f) That he does not suffer from a severe degree of varicocele (see Appendix 16, Regulations for Army Medical Service) or varicose veins. A candidate who has been successfully operated on will be accepted.

(g) That his limbs are well formed and developed.

(h) That there is free and perfect motion of all the joints.

(i) That his feet and toes are well formed.

(k) That he does not suffer from any inveterate skin disease.

(l) That he has no congenital malformation or defect (see Appendix 16, Regulations for Army Medical Service).

(m) That he does not bear traces of previous acute or chronic disease pointing to an impaired constitution.

8. If the candidate, in the opinion of the board, does not appear to be of pure European descent, a statement to this effect will be entered in the proceedings of the board.

ANNEXURE TO INDIA ARMY ORDER No. 491 of 1920.

The boot is made in three qualities 1, 2 & 3 and the quality will be found stamped on the sole of the boot under the size and magnitude. Thus $\frac{8}{1}$ signifying size 8, magnitude 4, quality 1.

Quality 1 is for issue to British troops only.

Quality 2 is for issue to Indian troops only.

Quality 3 is for issue to followers, etc.

All these qualities are made on the same principle and the fittings are the same. They differ only in the weight of the leather used.

The measurements of size and magnitude differ from those of the boot being replaced. The following are some of the principal improvement :—

Uppers.

(i) The legs of the Army boots were formerly made in two pieces with a *seam up the back* and covered over with a counter. This, on service, has been found unsatisfactory, a very considerable number of uppers breaking away.

(ii) The "B-5" pattern has, except in quality 3, a leg or quarter in one piece, and in order that this should fit the shape at the back of the foot, it is moulded to the required curve so as to ensure comfort.

(iii) The various pieces of the upper in "B-5" boot are sewn with 5 cord linen thread passed through hot wax. This wax is absorbed into the thread, strengthens it and is a great preservative. Most of the uppers were formerly closed with 5 cord glazed or polished thread and passed through a cold solution of wax. This solution is not absorbed into the thread.

(iv) The bellows tongue now introduced has a distinct advantage as it is cut from soft leather, which easily conforms to the foot when the boot is laced and does not cause discomfort, as heavy leather was liable to do. This bellows tongue makes the boot more waterproof and sandproof.

(v) The joinings of the quarters to the front are reinforced by bifurcated rivets which add to the strength.

(vi) The eyelet holes on the leg are now strengthened with a ringed eyelet which is very much stronger than the former method. The weakness of the eyelet for many years has been a serious fault, the eyelet working out, followed by the leather tearing away at the lace holes. This has been the cause of many boots being condemned.

(vii) The outside blocked toecap is also a great improvement. It not only adds to the wear, but what is probably of greater advantage, it affords better fitting and more room for the toes. Without this toecap the toes of the boot flatten down and either cause discomfort to the wearer or induce him to take boots, one or even two, sizes larger than he should do, the result being that the sole curves up and wears away quickly.

Attachment of the bottom to the uppers.

(i) The "B-5" boot is manufactured on the rivetted seam principle which is considered far superior to the hand sewn method and will stand almost any climatic conditions.

(ii) The insole, upper and through sole are rivetted together with 16 x 10 brass spear point rivets which pass through these three substances and are finally clinched, with what is known as the "Hook Clinch" which method is undoubtedly the best known to the trade.

(iii) The great advantage of the whole cut-through sole is that it makes a solid foundation for the foot and for heel attaching. These whole cut-throughs are also a great asset from the repairing point of view, as the outer sole can be stripped off and replaced without the boot losing its shape. This could not be done with the handsewn boot.

(iv) The outer sole is stitched to the throughs with a 12 cord hot waxed linen thread and the outsole attachments are again reinforced by standard screw wire set 7 1/8 apart thus giving double security at the same time not interfering with the flexibility of the boot to the extent that the screwed sole formerly did.

(v) The outsoles of the "B-5" boots are reinforced with toe plates and by protector studs which are driven into the soles and clinched before the sole is attached. This method

of clinching prevents the studs from being kicked out during wear and thus prolongs the life of the boot.

(vi) For mounted services the soles of the boots are reinforced with steel hills on the tread of the boot, instead of protector studs

A small number of these boots has already been distributed to Clothing Depôts and can be distinguished from other patterns by the curved blocked toe-cap.

610. Extensions of Service, British Army—

035365 (A. G.-5) War Office letter No. Q M G.-5.4119, dated 10th June 1920, and telegram No. 850 Mob.-3. Recruiting, dated 12th June 1920, are re-published below, with reference to India Army Orders 16-S. and 376 of 1920, for the information and guidance of all concerned.

I am directed to inform you that, as the enlistment for short periods of clerks for the Royal Army Service Corps (Supply Branch) has now been closed, it is desirable that every effort should be made to induce Royal Army Service Corps clerks whose enlistment is about to expire, to extend it. By Order No. 8 of 12th January, 1920, No. 27/General Number/7567 (A. G.-13)

In this connection I am to point out that such extensions are of great value to the public service in that they provide clerks who are accustomed to military clerical work, avoid change of personnel in offices, and, in the case of overseas garrisons, save the time and expense of sea journeys.

The attention of all men extending should be directed to paragraph 7 of Army Order No. 8 of 1920.

No further extension of service under Army Order No. 8 of 1920 will be allowed for the following Corps:—

R. A. S. C. (Remounts, farriers, saddlers).

R. A. M. C.

R. A. O. C. (Storemen, Cycle-fitters, Moulders, Painters, Shoemakers, Tailors, Turners).

611. Men reported Missing and Prisoners of War still unaccounted for.—A printed list of all Indian ranks and followers reported missing and prisoners of war or presumed prisoners of war and still unaccounted for is under issue to Commands, Divisions or Independent Brigades, and all units in India. 611
10th Aug.
1920.

2. Units should report to the Adjutant General in India the names of any men whose names appear in the list and who have rejoined their units or been otherwise accounted for.

3. Immediate action should be taken by units to clear up the fate of those remaining. To obviate any possibility of error the procedure outlined in Adjutant General in India letters No. 10211-1 (A. G. 8) and 10211-2 (A. G. 8) of the 18th January and 25th July 1919 is necessary. The only evidence obtainable may be of a negative character such as that the soldier was present with his unit on a certain date or at a certain action and was reported missing or believed to have been killed or taken prisoner, and that he has neither rejoined nor been repatriated or that nothing has been heard of him since. On such evidence a Court of Inquiry should presume the death of the soldier. In the case of men reported missing the presumed date of death should be the date on which the man was reported missing. In other cases where there is no evidence to fix the date of death definitely, the finding of the Court should record the month or year in which, or the date subsequent to which death is presumed to have occurred. In the case of men attached to other units the proceedings of the Courts of Inquiry should show that no further evidence is available from the unit to which the man was attached.

4. From this date the proceedings of Courts of Inquiry duly confirmed will be forwarded by General Officers Commanding Divisions or Independent Brigades direct to the following authorities:—

For France and East Africa to D. A. A. G., Record Section, Fort Delhi;

For Egyptian Expeditionary Force, including Gallipoli, Salonica, Black Sea Force, etc., to D. A. G., 3rd Echelon, Indian Section, Alexandria;

General Officers Commanding Divisions and Independent Brigades will report all deaths accepted to the unit concerned, repeating the report to the Adjutant General in India for completion of casualty records.

In the case of casualties in and on the frontiers of India the General Officer Commanding Division or Independent Brigade will be the competent authority to accept the death

5. Attention is invited to the proviso to section 116 of the Indian Army Act as added by Act II of 1920, the provisions of which must be observed as regards the estate of a missing person. Presumption of death by a Court of Inquiry is only for administrative purposes and cannot of itself have any legal effect on the disposal of, or succession to an, property.

Camp kettles on return to store after use are to be cleaned by boiling with a 5 per cent. solution of soda ash and rinsed. All rust should then be removed by scouring with wood ash or sand. The kettles should then be thoroughly rinsed and dried and coated lightly with mineral jelly, inside and out, to protect them from rust. It is not necessary to repaint camp kettles from which the lacquering has worn off.

617 Promotion and Staff College Examinations.—The following Memorandum on Books bearing on subjects in
G.S.M.T. 2 0635- examinations for promotion and for admission to the Staff College, which has been issued by the War Office, is

republished for information with reference to India Army Orders 31-S. and 37-S. of 1920 :—

MEMORANDUM ON 'BOOKS.

This List of Books bearing on subjects in Examinations for Promotion and for Admission to the Staff College, is issued in order that candidates may make reference to such of them as they think fit, and Officers in charge of Libraries in the Service may consider which books they would select to purchase, as funds become available.

1. The re-introduction of examinations for promotion and for admission to the Staff College has entailed a re-casting of the syllabuses (see Army Orders 109 and 180 of 1920) and the inclusion of new subjects. It has never been the custom to prescribe books for examinations other than official publications, but it is felt that, after the long period during which no examinations have been held, commanders who are concerned with the instruction of their officers may feel at a loss in guiding the reading of candidates. With this in view this memorandum is circulated in order to lay before officers a list of publications which bear on these subjects. There is no intention of conveying that all or any of these books should be read from beginning to end; they are books of reference which officers in charge of the various libraries in the Service may care to consider for inclusion in their lists for the use of candidates.

2. As regards the period of Military History for the promotion examinations, it is well to remind officers that historical facts and details will not be required. It is rather a study of the campaign, read in conjunction with the various manuals of the Service, which is aimed at, and which will allow candidates to benefit from the experience of the past. At the moment the only official document bearing on the period is the despatches of the Commander-in-Chief. Until the interim official history of the war is published it will not be possible to name any publication but these despatches.

3. For the study of Imperial Military Geography, Sub-head (b) (ii) for Lieutenants, and Development and Constitution of the British Empire, Sub-head (d) (ii) for Captains for promotion, and Imperial Organization for admission to the Staff College, a long list of works has been compiled. It is not claimed that it is a complete list, but it is sufficiently large

to allow officers to select authorities to whom they may refer for details on the prominent questions, geographical, historical and constitutional, which it is hoped that they will study in connection with this new and important subject in the curriculum of an officer. It is essential, now that the world has seen the whole Empire striving together in a common cause, that officers of the various forces of the Empire should study its geography and its history, and so become acquainted with the professional problems which affect it.

ARMY ORDER No 135 OF 1920

WAR OFFICE,
1st April, 1920.

Extension of service—1. It has been decided that certain soldiers who enlisted or re-enlisted under Army Order 155, 238 or 413 of 1919, or extended their service under Army Order 8 of 1920, may be permitted to extend the terms of their last enlistment or re-enlistment or extension of service under the provisions of Section 78 (1) (c) of the Army Act, up to a total of 12 years. Of this total the period to be served with the Colours will be that laid down in paragraph 262, King's Regulations, and the residue will be reserve service.

2 The date from which the enlistment as extended will count is the date on which the soldiers enlisted or re-enlisted under Army Order 155, 238 or 413 of 1919, or in the case of soldiers who have extended their service under Army Order 8 of 1920, from the date on which they were last enlisted or deemed to have been enlisted under the Military Service Acts, but any service spent in the Reserve since such enlistment will not count as Colour service or as qualifying service for pension should they eventually become entitled to pension.

3 To qualify for extension of service applicants must be—

(a) Between the ages* of 18 and 37

(b) Of good character and, in the opinion of their commanding officer, likely to continue efficient

- (c) Certified by a medical officer as fit to perform the duties of the corps in which they are serving in any part of the world
- (d) Unmarried, or if married, have been placed on the permanent married establishment.

4. Warrant or non-commissioned officers will not be allowed to extend their service under this authority unless they can be absorbed into the normal peace establishment; reference should be made* in every case to the Officer i/c Records concerned, who will decide in what rank they can be accepted.

5. No allowance for dependents, Classes A and B (see paragraph 67, Separation Allowance Regulations, 1918), or special parents' allowance will be issuable for soldiers extending their service under this Army Order.

6. Extension of service will be carried out on Army Form B 221, amended as follows :—

The heading should read "Descriptive return of a soldier who is desirous of extending his period of service under Section 78 (1) (c) of the Army Act and paragraph 262, King's Regulations, under Army Order 135 of 1920.

The first line of (a) should read :—

"*(a) I am desirous of extending my last enlistment, re-enlistment, or extension of service, to a total of 12 years, and my service with the Colours to years, and"

The approval of the competent military authority should read :—

"*I approve of the above-named man extending his period of service, and am of opinion that he will continue efficient for the full period of his extended engagement :—"

7. Extensions will be approved by the commanding officer of the units in which soldiers are now serving,

* The age limit may be extended, in the case of soldiers extending for service with the Corps of Military Accountants, at the discretion of Officer i/c Records, Corps of Military Accountants.

except in the case of soldiers serving with the Royal Artillery, Royal Army Service Corps, Royal Army Medical Corps, Royal Army Ordnance Corps, Army Pay Corps, Corps of Military Police and Corps of Military Accountants, when such approval will be given only by the Officer in Charge Records.

8 Army Form B 221, referred to in paragraph 6, will, after completion, be forwarded to the Officer in Charge Records concerned for custody with the soldier's documents.

9 The effect of any extensions carried out under the authority of the Army Order will be to place the soldiers in the same position as regards terms of service as though they had enlisted or re-enlisted on normal, instead of special short engagements.

By Command of the Army Council,

H. J. CREEDY.

MANUAL OF MILITARY LAW.

AMENDMENTS.

The following amendments will be made to the Manual of Military Law :—

(a) The following will be *substituted* for the Notes 1 to 5 inclusive to s. 133 of the Army Act :—

1. Note 1 to s. 137 applies to this section also.

2 Paragraph (1). The Pay Warrant provides that in the cases mentioned in this paragraph, pay is to be forfeited, and no discretion is given to the commanding officer whether or not to enforce wholly or partially the forfeiture. Absence as a prisoner of war, however, does not cause a forfeiture of pay, unless a court of inquiry decide that the soldier was taken prisoner through neglect or misconduct on his own part; and at most only the balance of pay unissued at the date of rejoining is forfeited.

Under Article 977 (b) of the Pay Warrant a soldier does not forfeit pay while under sentence of field punishment except for days upon which he is *in custody*, unless he has been ordered to forfeit pay under s. 44 (6) or 46 (2) (d) *in addition to* the sentence of field punishment.

3. Section 140 (2) lays down six hours as the minimum period of absence that will count as a day of absence unless two conditions are fulfilled, first, that the absentee was prevented from fulfilling a military duty, and second, that the duty was thrown upon some other person.

Six clear hours must, therefore, elapse, and they must be *reckoned consecutively*.

4. The period of absence must be reckoned as from the time the absence commenced.

5. If the period does not amount to six hours or upwards no pay is forfeited, except when the absence prevents the absentee from fulfilling some military duty which was thereby thrown on some other person, in which case the absentee would forfeit a day's pay no matter how short his absence might be.

6. If the absence amounts to six hours but not to twenty-four, one day's pay is forfeited whether the absence falls wholly on one natural day (reckoned from midnight to midnight) or partly on one natural day and partly on another.

7. If the period of absence exceeds twenty-four hours the number of days' pay forfeited will be the period in hours divided by twenty-four, any fraction over being counted as an additional day.

8. For instance, if a soldier absented himself from 9 p.m. on the 2nd October and returned at 2-45 a.m. on the 3rd October he would forfeit no pay as his absence did not amount to six hours or upwards, but if he was bound to go on guard or perform some other military duty and in consequence of his absence some other soldier had to go on guard or perform that duty then he would forfeit one day's pay.

9. Again, if a soldier absents himself at 10 p.m. on the 2nd October and remains absent until 1 a.m. on the 3rd October he would forfeit one day's pay, and if he remained absent until 2 a.m. on the 10th October he would forfeit eight days' pay, for in the latter case he would be 172 hours absent, or seven full days of twenty-four hours each, and an additional period of four hours for which one day's pay would be forfeited, making eight days' pay in all.

(b) The following forms will be substituted for "Forms of Court-Martial Warrants," Nos. II to V, shown on pages 722—726 :—

Should it be considered that the prayer of the petitioner is one which is deserving of consideration by higher authority, the Commanding or General Officer concerned should ensure the disposal of the prayer accordingly or, if not within the powers delegated to him by higher authority, forward it to the next higher authority.

6. A General Officer Commanding a Command, Independent Division or Independent Brigade may withhold a petition :—

- (vi) When the petition is an appeal in a case for which the law provides a remedy.
- (vii) When the petition relates to a subject on which the General Officer Commanding as defined above, is competent to pass orders and no previous application for redress has been submitted thereto.

713. Horses—Regimental.—It is under consideration to have Remount Officers in India connected with the various military districts for specific duties in connection with the animals of units, and the following procedure for the casting of all unserviceable Government animals (horses, mules, camels and draught bullocks) will be adopted in

713

14th Sept.

substitution of all orders previously existing on the subject. So far as circumstances permit the procedure may be adopted at once:—

2. Regulations will be amended in due course to correspond with the instructions herein promulgated:—

- (a) No animal that is not fit for one month's active service in the field with its own branch of the service, may be maintained in any unit.
- (b) Subject to the above condition, there is no age limit to the fitness for service of army animals.
- (c) It therefore follows that every animal on the effective strength of a unit is fit and available for active service.
- (d) Of the animals forming the peace establishment of a unit only such as are sick, or have less than 12 months' total army service, or have been cast by proper authority and are awaiting replacement, may be classed as ineffective.
- (e) Orsees and other public animals considered unfit for one month's service in the field will be cast under three main headings:—
 - (i) as veterinary cases, i.e., for chronic disability;
 - (ii) as "remount" cases, i.e., unsuitability from various causes (see paragraph (f) below);
 - (iii) as worn out (see paragraph (g) below).
- (f) "Remount" cases include animals unfit by reason of being prematurely worn out (i.e., under 15 years of age), windsneaking, crib-biting, speed-cutting and brnshing, stumbling and vice, those that fail to develop suitably, and horses dangerous or unsafe to ride.
- (g) Worn out animals are those 15 years* of age or over, and unfit for one month's field service.

* In the case of mules 18 years; camels 13 years and bullocks 15 years.
- (h) Veterinary cases will be inspected by the senior veterinary officer of the Command or District, who will record his opinion on India Army Form Z.-2149 for submission to the casting authority.

14th Sept
1929

- (i) "Remount" cases will similarly be inspected by the specified remount officer in the Command or District, who will record on India Army Form Z-2149 his reasons for recommending the casting. The specified remount officer will be authorized to retransfer to a depot animals which can better be placed in other branches.
- (j) As remounts are issued to the service during February and March, the annual castings of animals in all units must be completed before the end of January. Animals, other than "remount" cases, incapable of further work in peace should at once be brought up by the unit commander for casting.
- (k) The casting authority is the command or district commander, or any other officer who may from time to time be specified by the Quartermaster General in India. His decision is absolute in the case of "veterinary" and "worn out" cases. All "remount" cases will be specially reported by the Remount officer to the Director of Remounts. The Director of Remounts may at any time cast any Government animal.
- (l) Existing regulations remain unaltered in respect of the disposal or sale of cast animals, or the destruction of incurable animals.

714 Organization—"Trains."—In future, the

So 76 (G S) baggage columns of all formations, i.e. all baggage columns other than 1st line transport of units, will be known as "trains". The term "2nd line transport" will cease to exist. What is now known as "2nd line transport" of units will in future be divided up, a portion being added to the present 1st line transport and the remainder becoming part of the "train".

The above is intended for general information only. War establishments and composition of "trains" will be notified later, after the publication of new war establishments for units.

DEPARTMENT OF EDUCATION.

CENSUS.

Simla, the 21st August 1920.

NOTIFICATION.

In exercise of the powers conferred by Section 15 of the Indian Census Act, 1920 (IV of 1920) the Governor-General in Council is pleased to make the following rules for taking the census of cantonments and of troops on the march and elsewhere :—

**Rules for taking the Census of Cantonments
and of Troops on the march and elsewhere.**

A.—CANTONMENT BAZARS AND CIVIL LIMITS.

1. *Agency and Rules*—The census of so much of each Cantonment as lies beyond regimental or other purely military lines will be taken by the Cantonment Magistrate acting under the instructions of the civil authorities of the District or State. The rules to be followed are those laid down in the Provincial Census Codes.

B—MILITARY LIMITS

2 *Agency*.—Within regimental lines, or other purely military limits, the Census will be taken by the military authorities. The operations in military limits will be placed in general charge of a selected officer, who should, if possible, be conversant with the vernacular language in which the Census record will be prepared for natives of India resident within military limits.

3 *Determination of Boundaries*.—The determination of the purely military limits within the Cantonment should be undertaken, *not later than the 15th September 1920*, by the military and civil authorities in consultation with each other. The boundary decided on should be shown on a map, so that both may know clearly the areas for the enumeration of which they are respectively responsible.

4 *Scope of Enumeration*.—The Census to be taken by the military authorities under these orders will include all persons of whatever age, sex, race or profession, who, on the night of the 18th March 1921, are temporarily or permanently residing within military limits. In other words, it will include all persons who, though ordinarily residing elsewhere, may on that night be stopping temporarily within those limits, and also those who, while actually living and taking their meals within the same, may be absent for a few hours on night duty, etc.

5 *Way in which Census Record will be prepared*.—European officers and civilian Europeans and Anglo Indians of good standing will, if they desire, be supplied with Household Schedules on which to enter the necessary particulars for themselves, their families and their European or Anglo Indian servants. For all other persons the Census record will be prepared by Enumerators in the manner described further on.

6 *House List*.—A list should be prepared in the following form, *not later than the 15th October 1920*, showing every house or other building in the area in question which

is inhabited, or is likely to be inhabited, on the night of the Census:—

HOUSE LIST.

District

*Cantonment
or Station.*

Regiment.

Serial no of house.	Description of house (i.e., barracks, guard- house, dwelling house, married quarters, followers' quar- ters, etc.)	Name of chief occu- pant, or officer in charge.	Usual number of occupants	Language in which the record will be prepared.	Whether House- hold Schedules required—see Rule 5 (Enter 'yes' or 'no' against each house)
1	2	3	4	5	6

7. *Definition of House.*—If any large building has been divided into apartments such as married quarters, or groups of persons, each of which is treated as a house and given a separate number in column 1 of the House List. Large buildings not so divided, such as the quarters of unmarried privates, should be given only one number.

Huts occupied by Indian servants should be numbered separately from the houses to which they belong. Each block of servants' huts should be given a number of its own.

8. *House numbering.*—While the above list is being prepared, the number entered against each house should be painted conspicuously on the building, so that it may be easily recognised by the Enumerator.

9. *Formation of Blocks and Circles.*—After the numbers have been painted, the houses should be arranged in compact Blocks, and these Blocks should be grouped into Circles. No Block should contain more than 250 persons, and no Circle more than 2,500. Separate Blocks should be formed for Indian followers and servants attached to British regiments or employed by the officers.

12. *Supply of Forms.*—On receipt of the Circle Register the District or Political Officer will at once calculate the number of forms (English and vernacular) of each kind required at the rate of—

- (a) 1 Cover per block ;
- (b) 1 Block List per block ;
- (c) 1 General schedule for every 12 persons ;
- (d) 2 Household schedules for each house in which such schedules will be used ;

adding 25 per cent. for emergencies, etc.

He will also supply for each Supervisor one Cover with five General Schedules and a Block List stitched into it. This will serve to show how the forms should be bound up to make the Enumeration Books, and will also be useful for instruction purposes as explained in Rule 14.

13. *Block List.*—As soon as the forms are received the Block List, showing the number and description of the houses in each Block, should be written up from the House List.

14. *Instruction of Census Staff.*—The Supervisors and Enumerators must study very carefully the Instructions on the first two pages of the Cover and the Specimen Schedule on the back of it. The officer in charge of the Census must satisfy himself that they clearly understand their duties. He should make them fill in a few entries each in the bound copy of the Enumeration Book supplied to Supervisors for instruction purposes and should correct mistakes and give such verbal explanations as are found to be necessary.

15. *The Preliminary Enumeration.*—Early in February 1921, each Enumerator should go round his Block and enter in his Enumeration Book full particulars regarding every man, woman, or child whom he finds residing therein, including persons temporarily absent who are expected to be back by the 18th March. This work should be completed by the end of February. The entries thus made must be carefully examined and corrected by the Supervisor. The officer in charge of the Census should himself examine as many entries as possible in each Block, in order to make sure that they have been properly made. The houses should be taken in the order in which they are entered in the House List, and exact observance of the instructions must be

rigidly enforced Europeans and Anglo-Indians of the class referred to in Rule 5 need not be enumerated on this occasion, but Household Schedules should be distributed to them on the 16th March and the signature of the head of the household taken in the last column of the Block List

16 *The Final Census*—After gunfire on the night of the 18th March 1921 the Enumerator should again go over his Block and bring the Preliminary Record up to date by striking out the entries for persons who have died or gone away and entering the necessary particulars for new arrivals. He will thus complete the Census

17. *Rough Totals—Collection and Despatch of Forms*—On the morning of the 19th March the Enumerators will collect all the Household Schedules that have been issued and sew them into their books. They will then assemble at some place previously fixed by the Supervisor and prepare under his instructions the Abstracts inside the Covers, showing the number of houses and persons male and female in each Block. After taking the figures the Supervisor will compile them into a Circle Summary, showing the number of persons in the Circle, and the various summaries will then be combined into a single statement by the officer in charge of the Census and sent to the District or Political officer as the case may be. The Enumeration Books should then be packed up at once and sent to the same officer. They should be arranged carefully by Block and Circle according to the order shown in the Circle Register

C—TROOPS ON THE MARCH AND ON DUTY OUTSIDE CANTONMENTS

18 *Troops on the march*—The Census of regiments on the march and of troops on duty will be taken by the officer in command. The Census will include all persons, of whatever sex, age, race or profession, who are marching with the troops. The officer in command should be provided with the requisite forms *at the cantonment from which the troops start*. He should arrange to make one of the weekly halts on the 18th March 1921. If the Preliminary Enumeration was not effected before the troops left their last cantonment the schedules should be written up during the day. They should be checked in the usual manner after dark.

12. *Supply of Forms.*—On receipt of the Circle Register the District or Political Officer will at once calculate the number of forms (English and vernacular) of each kind required at the rate of—

- (a) 1 Cover per block ;
- (b) 1 Block List per block ;
- (c) 1 General schedule for every 12 persons ;
- (d) 2 Household schedules for each house in which such schedules will be used ;

adding 25 per cent. for emergencies, etc.

He will also supply for each Supervisor one Cover with five General Schedules and a Block List stitched into it. This will serve to show how the forms should be bound up to make the Enumeration Books, and will also be useful for instruction purposes as explained in Rule 14.

13. *Block List.*—As soon as the forms are received the Block List, showing the number and description of the houses in each Block, should be written up from the House List.

14. *Instruction of Census Staff.*—The Supervisors and Enumerators must study very carefully the Instructions on the first two pages of the Cover and the Specimen Schedules on the back of it. The officer in charge of the Census must satisfy himself that they clearly understand their duties. He should make them fill in a few entries each in the bound copy of the Enumeration Book supplied to Supervisors for instruction purposes and should correct mistakes and give such verbal explanations as are found to be necessary.

16 *The Final Census* —After gunfire on the night of the 18th March 1921 the Enumerator should again go over his Block and bring the Preliminary Record up to date by striking out the entries for persons who have died or gone away and entering the necessary particulars for new arrivals. He will thus complete the Census.

✓ 17. *Rough Totals—Collection and Despatch of Forms* —On the morning of the 19th March the Enumerators will collect all the Household Schedules that have been issued and sew them into their books. After testing the figures the Supervisor will compile them into a Circle Summary, showing the number of persons in the Circle, and the various summaries will then be combined into a single statement by the officer in charge of the Census and sent to the District or Political officer as the case may be. The Enumeration Books should then be packed up at once and sent to the same officer. They should be arranged carefully by Blocks and Circles according to the order shown in the Circle Register

C—TROOPS ON THE MARCH AND ON DUTY OUTSIDE CANTONMENTS

18 *Troops on the march* —The Census of regiments on the march and of troops on duty will be taken by the officer in command. The Census will include all persons, of whatever sex, age, race or profession, who are marching with the troops. The officer in command should be provided with the requisite forms *at the cantonment from which the troops start*. He should arrange to make one of the weekly halts on the 18th March 1921. If the Preliminary Enumeration was not effected before the troops left their last cantonment, the schedules should be written up during the day. They should be checked in the usual manner after dark.

19. *Troops in Trains*—If the regiment or detachment be travelling by rail on the night of the Census, the Enumeration of the actual troops should be effected by the officer in command at the first place at which the men alight. The Railway authorities will enumerate the families, servants and followers travelling with them in accordance with the general rules for the enumeration of persons travelling by rail.

20. *Despatch of Forms*.—The Enumeration Books for regiments or detachments on the march will be sent to the Magistrate of the District or the Political Agent of the State in which they are enumerated. The place where they were encamped at the time of the Census must be reported to the same officer. A telegram must also be sent to him stating the number of persons (total males and females) enumerated.

21. *Troops beyond the Frontier*—Troops or military outposts in tracts of which no general Census is being taken will be recorded in the final tables as belonging to the cantonment or station within the administrative frontier from which, or in connexion with which, they are detailed, or which is nearest to the post they occupy. Their Enumeration Books will be sent to the cantonment or station.

D.—GENERAL.

22. *Issue of Special Instructions*.—The Provincial Superintendent of Census operations will issue the necessary subsidiary instructions and arrange for the supply of forms, etc.

23. *Census Expenditure*.—Cantonment funds will bear all charges, in connection with the actual enumeration, but the requisite forms will be supplied free of charge. Government will bear all charges in connection with the compilation of the results.

ANNEXURE TO INDIA ARMY ORDER No 712 of 1920

Notice

Indian soldiers and others including relatives who wish to petition the Government of India, that is to say His Excellency the Viceroy of India, His Excellency the Commander-in-Chief, or Army Headquarters, must submit their petitions through channels which will ensure their careful and most expeditious consideration. The following instructions are published for guidance —

(a) *If still in the service of Government* — Any representation must in the first place be made by the soldier to his immediate superior, who will, after enquiry, dispose of it himself or report to the next senior officer for the orders of the Officer Commanding the unit. Matters of a purely private or personal nature may be represented by any rank to the company commander.

(b) *Men who have left the service* — If a person who has been, but is no longer in military employ, wishes to make a representation, he must have his petition prepared in writing or in print and ensure that the document concludes with a specific prayer.

The petition when prepared must be sent to the Officer Commanding the unit or depot of the unit in which the petitioner last served. If the petitioner is in doubt as to the present station of the unit in which he last served, he must send or take his petition to the military officer nearest to his place of residence for transmission to the Officer Commanding the unit or Depot of the unit.

(c) *Relatives of serving and ex soldiers* — Petitions must be prepared in writing or in print. They must be legible, intelligible and couched in loyal and respectful language, they must be duly signed by the petitioner, and must conclude with a specific prayer or prayers. They must then be sent to the Officer Commanding the station in which the soldier regarding whom the petition is made, last served, or is still serving. If the

station at which the soldier last served is not known, the petition should be sent or taken to the military officer nearest to the petitioner's home or place of residence for transmission to the Officer Commanding the unit or Depôt of the unit.

2. In future all petitions sent direct to His Excellency the Viceroy, to His Excellency the Commander-in-Chief, or to Army Headquarters, will be returned to the petitioners for submission through the proper channels as laid down above.

3. The object of the foregoing instructions is to ensure that the specific prayers of the petitioners are dealt with in the first instance by the authorities who are acquainted with the details of the case and thus avoid the delay now caused by having to return them for preliminary enquiry, before they can be attended to by the higher authorities.

729. Passports.—It has been decided by the Government of India, in consultation with the Civil Commissioner, Mesopotamia,

729

21st Sept.
1920.

19148 (G S M O-3)

that families of military officers and men proceeding to Mesopotamia in transports from an Indian Port may be exempted from the necessity of obtaining passports for the journey. Similarly, military families proceeding to India from Mesopotamia by transport should not be required to produce passports at the port of disembarkation.

To be re published in Command, Division, Divisional Area, Field Force, Brigade and Regimental Orders

730. Passports—Instances continue to occur of private servants of officers proceeding to Mesopotamia arriving at the

19148 (G S M O 3)

port of embarkation without the necessary passport

The attention of all officers should be drawn to the Mesopotamian Passport Regulations, 1919, and instructions issued to the effect that all private servants, who are not enrolled or attested followers, proceeding to Mesopotamia must be in possession of passports which should be obtained from the Civil Authorities of their respective Districts, prior to departure for the port of embarkation.

Neglect of these instructions involves not only great inconvenience to the Passport Authorities at the port of embarkation, but also unnecessary hardship to the individuals concerned who must necessarily be detained pending a reference to the Police Authorities of the District from which they come, or else be required to return to their respective Districts to obtain passports.

To be re published in Command, Division, Divisional Area, Field Force, Brigade and Regimental Orders

731. Legal and Judicial.—In pursuance of the provisions of section 45 of the Army Act (44 and 45 Vict c 8), and with

739. Economy in the use of forms.—Complaints have been received by the Contractors for Printing Government

of India Stock Forms, concerning delays in complying with indents for forms. In many cases indents are submitted far in excess of actual requirements and owing to the great shortage of paper, it is impossible for the Contractors always to comply with such demands.

All concerned are therefore directed to ensure that indents are restricted to the irreducible minimum and that only actual requirements in accordance with the scales laid down in I. A. F. Z-2001 are stated.

740. Books.—A pamphlet entitled "Instructions for Rail Movements" has been approved for provisional issue.

2. This pamphlet includes all orders up to the 30th September 1920, and supersedes the pamphlet issued under the authority of India Army Order No. 25 of 1919.

745. Service—Soldiers.—The following War Office telegram No. 48736 A. G.-1, dated 043250 (A. G.-5). 11th September 1920 is published:—

"The period of service of soldiers in any station mentioned in King's Regulations, paragraph 1489, will be reckoned from the commencement of the present tour of service in that station whether before or after the armistice."

746. Discharges—British Army.—With reference to India Army Orders 286 and 548 of 1920, attention is drawn to the amendment to the table published with Army Order 11 of 1920 contained in paragraph 4 of Army Order 213 of 1920. Attention is also drawn to paragraph 5 of that Army Order re-opening discharges under sub-paragraph (xv) of paragraph 392, King's Regulations, in an amended form as sub-paragraphs (xva) and (xvb). It should be noted that discharge under these two sub-paragraphs is a concession, whilst discharge under sub-paragraph (xxi) of paragraph 392, King's Regulations, is the automatic discharge which takes place in consequence of a soldier's engagement having terminated, *e.g.*, sub-paragraph (xv) read in conjunction with Article 1130 (ii) of the Royal Warrant for Pay contemplates the discharge, as a concession, of a soldier either before he has completed 12 years service, in special cases only, or after he has completed 12 years service and has entered upon his re-engagement to complete 21 years service. Had the soldier not re-engaged, his discharge on the expiration of his first period of engagement (*e.g.*, 12 years) would have taken place under sub-paragraph (xi) "on termination of engagement". Similarly a soldier discharged on completion of 21 years service would be discharged under sub-paragraph (xxi).

ANNEXURE TO INDIA ARMY ORDER
No 762 of 1920.

ARMY COUNCIL INSTRUCTION.

490. Compensation recovered from third parties in respect of death or injuries to officers or soldiers—instructions as to disposal, etc.

1. In the event of an officer or soldier being killed or injured in circumstances giving rise to a claim against a third party in respect of the death or injury, the following instructions will be observed.

2. The classes of casualty covered by this Army Council Instructions are:—

Class "A"—Death or injury, while in military service, in circumstances giving rise to a claim for damages by the individual or his representative against the party responsible for the casualty (*e.g.*, death or injury by being run over while on the march by a private motor car).

Casualties to soldiers while employed on duties of a civilian nature, where the employer is liable to pay compensation under the Workmen's Compensation and Employer's Liability Acts are not covered by this Army Council Instruction. Such casualties will be dealt with in the manner laid down in the appropriate instructions.

Class "B"—Murder of or criminal injuries to an officer or soldier by the inhabitants of the country in which he is serving in circumstances justifying a financial penalty on the district in which the outrage took place (*e.g.*, crimes in Ireland dealt with under the Criminal Injuries (Ireland) Act, 1919, and crimes in occupied territories for which a fine is inflicted on the inhabitants).

3. In cases of the above kind, should an award under Royal Warrant become payable as a result of the death or disability regard will be had to the amount of compensation,

if any, recovered from the third party. Consequently, in both classes of case the question of the third party compensation is not of interest to the aggrieved party alone, but may affect public funds.

Class "A"—The circumstances will at once be reported to the Secretary, War Office, through the usual channel, together with the proceedings of a Court of Enquiry, or report of inquest.

Class "B"—(a) In Ireland applications for compensation will be put forward under special instructions (issued locally).

(b) In Commands abroad the General Officer Commanding-in-Chief of the Command in which the outrage occurs is responsible for putting forward a demand on the Civil Government for compensation, either direct or through diplomatic channels, as circumstances require. The amount claimed may be fixed in the first instance at the discretion of the General Officer Commanding-in-Chief, having regard to all the circumstances of the case, "subject to confirmation by His Majesty's Government." Full particulars will then be reported to the Secretary, War Office, in order that the amount of the claim may be reviewed.

4. In all cases, the amount of any sum recovered, or proposed to be recovered by way of compensation, will be reported, in the case of officers to the Secretary, War Office, and in the case of other ranks, to the Officer-in-charge, Records, who will enter the figure in the man's documents, in order that, in the event of discharge or death, the facts may be communicated to the authority responsible for issuing disability awards under Royal Warrants. If compensation cannot be recovered, the fact should be stated with reasons.

5 Nothing in this Army Council Instruction affects the right of an aggrieved officer or soldier to take legal action on his own responsibility with a view to recovery of damages, should he wish to do so. The costs of such action will not be recoverable from public funds.

ARMY COUNCIL INSTRUCTION.

No. 554 of 1920.

WAR OFFICE,

17th August, 1920.

554. Definition of Army Engagements, etc.

1. It having been represented that difficulty is often experienced by Commanding Officers, etc., in defining the nature of engagements on which soldiers are serving, the following ruling is published for general information :—

2. Soldiers serving on any regular army attestation (including soldiers deemed to be enlisted under the Military Service Acts), are soldiers of the regular army.

3. Regular Army attestations comprise the following attestations —

Army Form B-267	. 12 years with the colours
Army Form B-249	. 9 years with the colours and 3 years in the reserve
—Army Form B-253	. (Household Cavalry) 8 years with the colours and 4 years in the reserve
Army Form B-224	. 8 years with the colours and 4 years in the reserve
Army Form B-265	. 7 years with the colours and 5 years in the reserve
Army Form B-260	. 4 years with the colours and 4 years in the reserve
Army Form B-250	. 6 years with the colours and 6 years in the reserve
Army Form B-217	. 3 years with the colours and 9 years in the reserve
Army Form B-133	. 2 years with the colours and 10 years in the reserve
Army Form B-111	. 1 year with the colours or duration of the war

(g) "Territorial Force Engagement" or "Special Reserve Engagement" means a man serving on a Territorial Force or Special Reserve engagement. Such men are serving on Engagements distinct from those of the Regular Army and cannot be regarded as soldiers of the after war Regular Army.

4. *Colour Service*.—The following is a definition of "Colour Service". Colour service is held to mean:—

(a) *Regular Army*. In the case of soldiers serving on regular army engagements, any period between the date of enlistment and the date of discharge, transfer to the army reserve, or death if this occurs prior to discharge or transfer to the reserve; and in addition, any period between recall from the reserve and subsequent re-transfer to the reserve, discharge or death. In other words, colour service is any service not in the reserve, including the various classes of reserve (B. W. P. Z.) which have been introduced during the war.

(b) *Territorial Force and Special Reserve*. In the Territorial Force and Special Reserve the term "Colour Service" is the period of the date of attestation to the date of completion of engagement or death if this occurs prior to completion of engagement.

"Embodied" or "mobilised" service is the period from the date on which the soldier was embodied or mobilised to the date of discharge, disembodiment, transfer or re-transfer to the Reserve or death while embodied or mobilised.

Note.—The term "deemed to have been enlisted under the Military Service Acts" comprises men who are commonly spoken of as "Conscripts" or "Compulsorily enlisted".

- (a) Khaki Serge Service Dress, or
- (b) Khaki Drill Service Dress

For the present, and until further orders, no officer is required to provide himself with any uniform other than khaki drill and white mess dress An officer who at the present time provides himself with uniform other than the above is therefore incurring avoidable expenditure

Khaki drill will be worn by all ranks for all purposes except in Mess Order for orders regarding which see paragraph 4 below Khaki serge service dress may be worn by officers in lieu of khaki drill when not parading with units

Khaki shirts khaki collars and khaki ties will be worn on all occasions with the service dress jacket Black or coloured ties are strictly forbidden

Trousers without putties may also be worn in service dress by staff officers and also by officers and men belonging to units of the dismounted services when off duty inside barracks or on fatigue inside barracks. During the hot weather Divisional Commanders may, however, permit the use of trousers without putties on musketry ranges, if it is considered desirable locally. Units who so desire may maintain one pair khaki drill shorts in lieu of one pair khaki drill trousers or khaki drill knickerbockers on the condition that they provide themselves out of their own funds with khaki hose tops, which will allow of these being turned up if "shorts" are worn in cold weather.

Officers are permitted to wear khaki Jodhpore pattern breeches in uniform within barracks when not on parade with troops.

Within such dates as may be settled by General Officers Commanding all troops are permitted to appear in shirt sleeves on parades or in walking-out dress. Belts will be worn by all ranks for whom authorised. Officers will wear khaki shirts with shoulder straps and badges of rank; the collar of the shirt may be worn open without a tie.

Officers for whom black leather-riding boots are authorised as articles of full dress may wear them when in khaki uniform and not on parade with troops. Until a definite decision as to the service riding boot and gaiters has been arrived at, officers may wear any suitable pattern in their possession.

4. *Mess Dress*.—Officers in possession of mess dress will wear it; those not in possession of mess kit, may wear blue jumpers and overalls at mess if in possession of such articles, but on no account are they to be specially purchased; others will wear khaki drill service dress. Shoes may be worn.

042633 (A. G. 11). From the numerous representations which continue to be received at Army Headquarters from Officers Commanding Depôts of British and Indian units, Sapper and Miner Corps, Transport and Medical Units serving on the Frontier or overseas, reporting their units are not available from that followers required by the depôt, it is apparent that Officers Commanding depôts and Corps are not aware of their responsibility in connection with the supply of such personnel.

2 The following procedure is notified to all Depôts of British and Indian Units, Sapper and Miner Corps, Transports and Medical Units, Remount Department and Veterinary units for future guidance.

On receipt of a demand for followers for the unit, the Officer Commanding the Depôt or Corps will at once take steps in direct communication with the Divisional Recruiting Officer concerned, to recruit the classes required, and only in cases where every effort to obtain them has failed, will the case be reported to the General Officer Commanding for assistance.

In no case will Officer Commanding Depôts, or Corps report such deficiencies direct to Army Headquarters in future.

3 The Depôt of a mobilised Medical Unit will be the Divisional Company of the Indian Hospital Corps in the stations where the unit was originally mobilised

The Depôt of medical units originally mobilised at Frontier stations will be No. 1 Divisional Company, Indian Hospital Corps, and of units mobilised at Aden No. 6 Divisional Company, Indian Hospital Corps.

4. All demands on account of units for which no depôt exists in India, will, until further orders, be submitted to Branch of Army Headquarters concerned.

5. For Ordnance services demands will be made on the Director of Equipment and Ordnance Stores, Army Headquarters.

ARMY COUNCIL INSTRUCTION.

No. 575 of 1920.

WAR OFFICE, -

27th August 1920.

575. Instructions for effecting Discharges and Transfers to the Reserve of Soldiers serving Overseas

1. This Army Council Instruction is issued in continuation of Army Council Instruction 200 of 1920, and contains the procedure for effecting the discharge from the Service, or transfer to Section B of the Reserve, of soldiers serving overseas.

2. The following procedure will be followed in the case of.—

- (a) *Soldiers serving on a normal engagement or enlisted or re-enlisted under Army Order 238 of 1919, or who extended their service under Army Order 8 or 296 of 1920, who are due for discharge or transfer to Section B of the Reserve, and who are not desirous of being discharged overseas.*

Such soldiers are to be transferred to the home establishment before the expiration of their colour service, including the extra year under Section 87 of the Army Act (except as stated in paragraph). The units or depôts at home to which they are to be posted or attached are given in Appendix II to this Army Council Instruction.

Such personnel are not to be retained with the units or depôts at home, but are to be forthwith brought forward for discharge or transfer to Section B of the Reserve, in accordance with Sections III and VIII respectively of "Instructions for Discharges and Transfers to the Reserve, March 1920."

The date of approval of discharge or transfer to Section B of the Reserve will be that on which the soldier leaves the unit or depot for his home. The Officer Commanding unit or depot is to despatch the soldier to his home in sufficient time to allow of his being granted furlough under paragraph 1322, King's Regulations, as amended by Army Order 345 of 1920, before the termination of his engagement.

- (b) *Soldiers serving on a normal engagement or enlisted or re-enlisted under Army Order 238 of 1919, or who extended their service under Army Order 8 or 296 of 1920, who are due for discharge or transfer to Section B of the Reserve, and who are permitted to remain overseas.*

The following procedure will be carried out:—

(i) *Medical examination.*

Every soldier is to be examined by the Medical Officer in charge unit at least two weeks before the date on which he leaves his unit.

If the soldier claims that he is suffering from a disability, or the Medical Officer considers he has been impaired in health since entry into the service, the Officer Commanding unit is to arrange, under the orders of the General Officer Commanding, for the soldier to be brought before a medical board at a military hospital as near as possible to the day on which he is due to leave his unit.

The Officer Commanding unit is to ensure that before the assembly of the medical board, the soldier completes Army Form B-179B and that the Medical Officer completes the first two pages of Army Form B-179A.

If the soldier does *not* claim to be suffering from a disability, the Officer Commanding unit is to ensure that he signs the statement on Army Form Z-22* to that effect. If the Medical Officer in charge unit does not discover any disability, or does not consider the soldier to have been impaired in health, he is to make an entry to that question 9 on Army Form Z-22 to the date of examination and sign and date the Army Form.

* A new Army Form will later on take the place of Army Form Z-22.

(ii) Notification to Paymaster

The Officer Commanding unit is responsible that the Paymaster concerned is notified of the soldier's impending discharge from the Service

In the case of a soldier whose accounts are kept locally the Officer Commanding unit is to ensure that Army Form O-1809F (see Appendix III) is rendered to the Paymaster seven days before the date of approval

In the case of a soldier whose accounts are not kept locally the Officer Commanding unit is to ensure that the Paymaster concerned receives notification on Army Form O-1809F of the soldier's impending discharge in sufficient time to enable the Paymaster to notify by telegram the amount due to the soldier

(iii) Approval of Discharge

As a soldier who elects to take his discharge overseas for the purpose of residing permanently outside the United Kingdom cannot be transferred to Section B of the Reserve, the Officer Commanding unit will approve the soldier's discharge on 392, King which the documents enumerated in paragraph 5 below, together with Army Form Z 22 or Army Forms B 179 A and B to the Officer in charge Records concerned

Army Form Z 22 is forwarded to the Officer in-charge Records for the purpose of being kept as a record of the soldier's medical examination

The Officer Commanding unit will at the same time notify the Officer in charge Records —

The date of approval of discharge

The sub paragraph of paragraph 392 King's Regulations, under which he has approved the discharge

The address to which the soldier's discharge certificate (Army Form B 2079) and character certificate (Army Form B 2067) are to be sent

The particulars of the soldier's character on Army D-402 (see Appendix IV) This Army Form can be made out in manuscript

He will pay the soldier the balance notified by the Paymaster, less any cash payments already made or bills or stoppages incurred after the despatch of Army Form O.-1809r. to the Paymaster.

(iv) *Protection Certificate.*

The soldier, before leaving his unit, is to be given a protection certificate made out in manuscript (see Appendix V) pending the receipt of his discharge certificate (Army Form B.-2079) from the Officer-in-charge Records.

(v) *Instructions for Officers in charge Records.*

The Officer-in-charge Records will confirm the soldier's discharge with effect from the date of approval, and will immediately forward Army Form B.-2079 and Army Form B.-2067 to the soldier.

(vi) *Soldier temporarily in Hospital—how dealt with.*

In the case of a soldier temporarily in hospital at the late he is due for discharge from the Service, the Officer Commanding unit will approve the soldier's discharge as in sub-paragraph (iii) above, with effect from the termination of his engagement.

The Officer Commanding unit will have to arrange with the Officer in charge Hospital for the medical examination of the soldier to be carried out in accordance with sub-paragraph (i) above.

The special authority of the General Officer Commanding must be obtained for his retention in hospital until no longer in need of in-door hospital treatment.

(c) *Soldiers re-enlisted for short periods of colour service only, under Army Orders 4, 124, 125 of 1919, and Special India Army Order 39-S. of 1918 and 47-S. of 1919.*

Such soldiers, unless they extend their service,* are to be transferred to the home establishment before

* An Army Order will shortly be published regarding extensions of service of soldiers who re-enlisted under Army Orders 4, 124, 125 of 1919, or Special India Army Order 39-S. of 1918 and 47-S. of 1919.

the termination of their engagement. The units or depôts to which they are to be posted or attached are given in Appendix I to this Army Council Instruction.

In cases where soldiers were not granted the special furlough on re-enlistment they are to be sent home at such earlier time as may be necessary to enable them to be granted the special furlough before they become due for discharge.

Such personnel are not to be retained with the units or depôts at home, but are to be brought forward for discharge in accordance with Section III of "Instructions for Discharges and Transfers to the Reserve, March 1920."

The date of approval of discharge will be that on which the soldier leaves the unit or depôt for his home. The Officer Commanding unit or depôt is to despatch the soldier to his home in sufficient time to allow of his being granted, before the termination of his engagement, either the special furlough to which he was entitled on re-enlistment, provided he has not already had it, or furlough under paragraph 1322, King's Regulations.

It should be noted that soldiers enlisted under Army Orders 4, 124, 125 of 1919, or Special India Army Order 29-S of 1918 or 47-S of 1919, are not liable for the extra year's service under section 87 of the Army Act.

In the event of a soldier so enlisted being permitted to remain overseas on the expiration of his engagement, the Officer Commanding unit will carry out the procedure laid down in sub-paragraph (b) above.

(a) *Soldiers, irrespective of whether or not they are serving on a normal engagement whose discharge has been approved under sub-paragraph (viii) or sub-paragraphs (x), (xi), (xii), or (xiii) of paragraph 392, King's Regulations*

Such soldiers are to be dealt with as laid down in Appendix I to this Army Council Instruction.

- (c) *Soldiers serving overseas who are not due for discharge or transfer to the Reserve by reason of their period of colour service not having expired, but whose discharge or premature transfer to the Reserve has been approved by the competent authority.*

Such soldiers are to be transferred to the home establishment for disposal.

The units or depôts to which they are to be posted or attached are given in Appendix II to this Army Council Instruction

The written authority for the discharge or premature transfer to the Reserve of a soldier in such a case is to accompany the documents mentioned in paragraph 5 below.

3. Special attention is directed to the instructions contained in Army Orders 238 and 295 of 1920, regarding the use of a suit of plain clothes or an allowance in lieu and the clothing and necessaries which a soldier is allowed to retain on discharge or transfer to the Reserve.

4. Soldiers serving with the Rhine Forces, in France, Flanders, or a plebiscite area are not to be retained for the next year, or any portion of a year under Section 87 of the Army Act

5. The documents which are to accompany a soldier sent home for discharge or transfer to Section B of the Reserve are as follows:—

Army Form B.-103, Army Form B.-120, Army Form B.-122 and Army Form B.-178,

and the duplicate attestation or Army Form B.-200 as the case may be, together with Army Form B.-108 and all Army forms belonging to the soldier concerned, that may be held in enclosures in the duplicate attestation, or with Army Form B.-200.

6. The existing procedure is to be followed as regards the transfer of soldiers and their documents to a hospital at home or to a hospital overseas

The procedure to be followed, if such soldiers are eventually invalided from the Service, is laid down in Section I "Instructions for Discharges and Transfers to the Reserve," March 1920."

7 *Soldiers claiming Repatriation Overseas*

No claim to repatriation overseas will be considered which is not submitted to the War Office prior to 31st January 1921, in accordance with the provisions of Army Order 304 of 1920. Officers Commanding units will, therefore, on receipt of this Army Council Instruction, ascertain whether or not a soldier is desirous of making a claim to repatriation overseas, and if so, and this has not already been done, complete and forward Army Form Z 7 immediately to the Secretary, War Office, Mobilization 2 (c) Repatriation.

The conditions under which a soldier can claim repatriation are contained in Army Order 354 of 1920 and Chapter XII, Army Demobilization Regulations. The conditions under which a soldier can claim repatriation for his wife and family are contained in Allowance Regulations, Army Order 304 of 1920, and Army Council Instruction 208 of 1919. In the case of a married soldier claiming repatriation particular of his wife and family (if any) will in every case be inserted on Army Form Z 7. (See Appendix VI).

Soldiers who have failed to submit their claims to repatriation to the War Office prior to 31st January 1921, will not be repatriated at the expense of Army Funds, except those who may be entitled to repatriation under Allowance Regulations, 1914. Soldiers entitled to repatriation under Allowance Regulations, 1914, will not be sent to the units or depôts referred to in Appendix VIII, but will be dealt with in accordance with the provisions and conditions of King's Regulations and Allowance Regulations, 1914.

Soldiers who elect Group 45 (a) (Deferred Passage) will be repatriated only under this Group in very special circumstances and such cases must be referred to the Secretary, War Office [Mobilization 2 (c) Repatriation].

The following procedure will be carried out by Officers Commanding units —

(a) *In the case of soldiers referred to in paragraph 2 (a) above —*

(i) Provided their claims to repatriation have been approved by the War Office prior to 31st January 1921, they will be sent to their respective units or depôts, as shown in Appendix VIII to this Army Council Instruction so as to arrive at least 3 months prior to the termination of their engagements.

(ii) Each soldier will be given a copy of the certificate printed as Appendix VII to this Army Council Instruction.

(iii) The appropriate Officer Commanding unit or dépôt referred to in Appendix VIII to this Army Council Instruction will be notified *by post* that the soldier and his documents are being sent home with a view to the soldier's repatriation overseas being carried out before his discharge from the Service.

Should the soldier's claim have been submitted to the War Office prior to 31st January 1921, but not yet approved, the appropriate Officer Commanding unit or dépôt referred to in Appendix VIII to this Army Council Instruction will be notified to this effect, and that the soldier and his documents are being sent home with a view to the verification of his claim and subsequent repatriation, if so entitled.

(iv) The documents enumerated under paragraph 5 will be forwarded to the Officer Commanding unit or dépôt referred to in Appendix VIII to this Army Council Instruction.

(The documents are to be placed in a special envelope which is to be marked in red ink "Documents of a soldier who has made a claim to repatriation overseas.") Further action in accordance with current instructions will be taken by the Officer Commanding unit or dépôt on the arrival of the soldier with his documents.

NOTE.—Soldiers whose claims to repatriation overseas have been approved by the War Office, and who can be sent direct to their overseas destinations, shall be sent direct to their destinations from the Commands at the discretion and under arrangements made by the General Officer Commanding concerned. Arrangements should be made as far as shipping facilities permit, that they arrive at their overseas destinations before the expiration of their engagements. The soldier's discharge will be approved as from the date of the termination of his engagement, and the procedure as to the disposal of the soldier's documents will be carried out as laid down in paragraph 2 (b) of this Army Council Instruction. In the event of it not being possible to repatriate a soldier so as to ensure his arrival at his overseas destination prior to the termination of his engagement the date of his discharge will be approved as from the date of the standardized voyage period.

(b) In the case of soldiers referred to in paragraph 2 (b) above —

- (1) Explain to the soldier that on being discharged locally he forfeits his right to repatriation unless special sanction has previously been given by the War Office for his repatriation to his overseas home from the place of discharge. In special cases where such sanction is desired applications must be forwarded through the usual channels to the Secretary, War Office [Mob 2 (c) Repatriation]

(c) In the case of soldiers referred to in paragraph 2 (c) above —

The procedure will be the same as laid down in paragraph 7 (a) above. The instructions as regards soldiers being sent home 3 months prior to the termination of their engagement do not, however, allow for the furlough to which these soldiers were entitled on re-enlistment under the honnry Army Orders mentioned in paragraph 2 (c).

In cases in which a soldier has not received the special furlough on enlistment or re-enlistment he is to be sent to the United Kingdom or repatriated direct, at such earlier date as may be necessary to enable him to be granted this special furlough before the termination of his engagement.

If, however, the exigencies of the service do not permit of a soldier, who has not already received the furlough alluded to above being sent to the United Kingdom or repatriated direct in sufficient time to enable him to be granted it before the termination of his engagement, the date of his discharge is to be post dated so as to enable him to receive this special furlough in the United Kingdom or in the country of his domicile, on full pay and allowances.

(d) In the case of soldiers referred to in paragraph 2 (c) above —

The procedure will be the same as laid down in paragraph 7 (a) above, with the exception that such

soldiers will be sent to their respective units or depôts, or repatriated direct, as soon as possible

ANNEXURE TO INDIA ARMY ORDER
No. 925 of 1920.

Army Department letter No. 12018, dated 14th September 1920.

With reference to your letter No. C. B P.-3785, dated the 27th May 1920, to the Adjutant General in India, I am directed to say that the term "next-of-kin" used in clause 8 of Army Instruction (India) No. 64 of 1918 refers to the heirs within the degrees of relationship mentioned in paragraph 1067, Army Regulations, India, Volume I. Brothers and nephews are not therefore eligible for a gratuity admissible under the Army Instruction (India) referred to in respect of the death of a follower.

2. Any special cases, in which the strict application of the above rule would be opposed to the recognised customs of the people in a particular locality, may be referred for consideration on their merits.

- 3 The dependence of civilisation on the accumulation of stores of knowledge

PRINCIPLES DETERMINING METHODS OF INSTRUCTION

1. Work outwards from the man and his immediate surroundings
- 2 Introduce only such information as will stimulate individual thought and induce a point of view based on knowledge rather than prejudice
- 3 The instructor in each lesson should -
 - (a) Help to form in the men's minds a historical background as a basis for thought
 - (b) Put forward a problem touching present day life, showing something of its evolution within our Empire giving such information as will help towards forming a considered opinion, but refraining from offering any rigid solution
 - (c) Place before the men ideals which will raise their standard of thought and action in work and leisure

OUTLINES OF SYLLABUS.

(Bring out the principles and problems of colonisation by conquest in the Roman and in the present British Empire.)

- (3) The problem of nationality. ¹⁸⁴⁷⁻¹⁸⁴⁸ The making of the English nation.

(Bring out the ever increasing need for education in an electorate which takes on itself increasing powers in the regulation of the life of the citizen)

APPENDIX B (i)

The Theory and Practice of Commerce

The Aim of the Teacher —

1 To develop business acumen in relation to individual personality, and to impart such knowledge as is necessary for the efficient organisation of a business concern.

2 To demonstrate the place which commerce has in the life of the community and to develop the spirit of social service as an essential element in commercial practice

3 To demonstrate the inter relation between commerce and other spheres of the human development (such as industry, and the other arts) by tracing the commercial aspect of the progress of western civilisation taking the British Empire as an example

Note—It is important that the following syllabus is not regarded merely as a means of providing a man with such technical knowledge as is necessary to fill a definite post. The subject should be taught in such a manner that it also develops the wider outlook on life and thus becomes a means of general culture

APPENDIX B (u)

Book Keeping and Accountancy—The student of book keeping who has no previous experience finds himself confused by a mass of strange terms and ideas. This will inevitably arrest progress for some time unless the teacher creates an atmosphere of commerce combined with the frequent and exact use on his part of the right kind of terminology.

(Here it may be stated that in the opinion of many the use of the terms single and double entry should be avoided because it creates the impression that the merits and demerits of each should be considered in relation to the other.)

Having developed a general interest in commerce it is now necessary to consider the best way of driving home the elementary principles of book keeping. Up to the present no scientific teaching methods have been set forth. Different text books approach the task from different standpoints. One will deal with the journal as the book of prime entry, arguing that the principles of book keeping can best be understood by regarding all the transactions in terms of the journal. Other text books commence with an elementary explanation of the ledger before proceeding to the journal stating as their reason that the journal does not sufficiently explain the principles of accounts but whatever method the instructor selects he must remember that he should as quickly as possible make the class realise that every debit has credit entry and vice versa, and that the receiver is always debited and the giver always credited. Having achieved this it is now necessary to guide the class in carrying these principles to practical issues. For instance the use of the cash book should be so thoroughly understood that any subdivisions that may be necessary could be introduced without much further instruction.

The student of book keeping will in time have to approach the subject from two points of view—that of routine and that of initiative. The instructor may achieve the first by giving the class a thorough grounding in the journal, for though the journal is little used in practical book

keeping, if the student can rationally to justify every item, the monotony of mere routine will be abolished and a minimum of error will be assured. A very effective way to develop the capacity for initiative is for the instructor to provide the class with the suitable transactions of a business for a certain definite period, and then allow each student to create his own system of books.

It is open to doubt whether the introduction of the historical aspect of the subject achieves any result. An advanced class would perhaps take greater interest in the history of book keeping, owing to their knowledge of the subject. Any historical material introduced should be brief and should have some definite purpose in relation to practice such as that of impressing the importance of good book keeping. Lastly, the exact meaning of commercial terms may sometimes be most easily explained by the help of historical notes.

APPENDIX B (iii)

Commercial Law—The object in view is to give a clear and comprehensive exposition of the main principles of the commercial law of England. While nothing can be gained by indulging in too much detail there are many points of the law which the student of commerce should be acquainted with, and the subject should be approached in such a manner that the average student, who would in the normal course of events, leave the details of the law to the lawyer, will be made familiar with these sections of the Common Law of the realm which apply particularly to commerce.

APPENDIX C

DRAWING

The primary aim of the teaching of drawing in the curriculum of the examination for Army Certificates of Education is to provide the individual with a medium of expression. Drawing in its many forms can be made a means whereby the individual can use his faculties in his own way and in so doing develop individuality. Drawing for some can be made a language in which the self for the first time becomes articulate. Secondary aims are the acquisition of technical skill, the training of the powers of accurate observation and visual memory, and the development of judgment, imagination and taste.

To achieve these aims with a class of adults, a modification of conditions should not be made. The models should be simple form and size of

texture
drawings
cubes
more

usually determined by their use, and more directly to reason. For example, if it is elicited from a class why a bucket is wider at the rim than at the base, a barrel wider in the middle than at the ends, the front legs of a chair straight and the back legs sloping it will stimulate an interest in form on practical if not æsthetic grounds. The instructor should bear in mind that the value of drawing from objects depends upon the pupil's drawing being the genuine expression of his perception of that object. Anything therefore tending to convey preconceived ideas about that perception should be avoided. The pupil must draw what he sees, not what he or the instructor thinks he ought to see. The instructor should not dictate the methods to be employed in recording the pupil's perception nor should he draw first for the class to copy. If the instructor draws at all it should be to illustrate a principle or to demonstrate the method of handling the medium.

The class should have a choice of mediums in which to record their drawings—either pencil and paper, pastel and toned paper, or water colour. Pastel appears to be the easiest medium for the early lessons. Coloured objects can then be used from the first.

The suggested practices given below are not intended to represent single lessons. Many lessons may be given in each. In all lessons it should be the aim of the instructor to obtain from each pupil a finished drawing as complete as possible. Outline drawings should not be attempted at first, the visual image of an object is a complex impression of form, colour, light and shade, and the pupil should not be expected to analyse his perception and reproduce it in parts. Finally, pupils should be encouraged in choosing the scale upon which an object is to be drawn to consider the tasteful relation of the drawing to the paper in size and placing. All drawings made in class should be carefully preserved to demonstrate the rate of progress of the pupils.

PRELIMINARY PRACTICE

Object—To discover previous experience and ability of the individual pupils and to grade the class as may be most convenient for further instruction.

Method—Consult with the pupils to find out which form of drawing interests them and invite each member of the class to select the subject for his drawing. The following may be suggested: Natural objects (still-life, fruit, flowers), fashioned objects (machine, lead pipe), figures (animals, landscape). Some may have difficulty in selecting a subject but nearly all will be able to undertake to draw something with which they are familiar—a tool they have used or something they have made. Each member of the class should be allowed to choose his medium (pastel, water colour or pencil), and should then be set to make a memory drawing of the object he has selected. The instructor should insist upon a memory drawing and not a drawing of anything that is in the room. From the work done it will be possible to discover those who have mental pictures more or less accurate and those whose powers of observation are quite untrained, and after one or two exercises the class can be graded according to their tastes, stage of development and previous practice or ability.

statuary. The class
 arranged according to individual
 in mind that the criterion of what is good in composition is solely what
 is pleasing—pleasing to the majority—as exemplified in the approval of
 generations accorded to those works of art that “live” He should not
 impose his own arrangements. It may be pointed out, however, that the
 pleasing quality in masterly compositions, whether in picture, sculpture
 or architecture, is to be found in the fact that they have their basis in
 the forms of nature and express human thoughts and emotions. The
 grace and tenderness of flowers, the rhythm of pastoral scenes, the gloom
 of forest trees, and the noble dignity of snow mountains, these are blended
 in skilful compositions to arouse corresponding thoughts and emotions in
 the beholder. In this practice lectures and visits to art galleries will be
 useful to illustrate the lessons and to cultivate appreciation and taste

FIFTH PRACTICE

Imagination and illustration.

Suggestions for Method—This practice belongs to a later period of
 instruction in which it is assumed that the pupil has already acquired some
 degree of facility in expression, and has developed the power of forming
 tolerably vivid and accurate mental pictures. The class is given a sugges-
 tion through the medium of hearing, touch or smell, or a combination of
 all three, and is then required to reproduce in a drawing the mental picture
 thereby called up. For example, the instructor can give the class a
 phrase—“A Winter’s Tale” “A Run on the Bank” “The Last Post,”
 or a scrap of dialogue or present an article wrapped up to be felt but not
 seen, or provide from outside the class room sounds such as the splashing
 of water, the tuning of a violin, the ring of glasses, or the scent of lavender
 or violets, each member of the class is then asked to draw the mental picture
 evoked by the sounds, &c. A further exercise is provided by reading the
 description of a scene from a book for the class to illustrate. A comparison
 of the work of the members of the class will suggest which members should
 be encouraged to further efforts in original work.

SIXTH PRACTICE

Selection

Suggestions for Method—(a) From Life. A model performs more or
 less familiar evolutions, such as bowling at cricket, bayonet exercises,
 throwing up a ball and catching it. The evolutions are performed several
 times, the model then stands down and the class draws from memory
 the model in the attitude that pleased them most. (b) Still Life. The
 sketching class is taken for a walk and the students draw from memory
 the scene observed on the road that pleased them most.

Accurate observation and free expression.

Suggestions for Method.—Select a simple object, if possible one like to be of some interest to everybody, of striking and easily recorded form, texture and colour. The instructor can do much to stimulate the use of the object by various methods of representation.

should always be drawn in its relation to the background, which should be the same colour as the paper on which the drawing is made.

SECOND PRACTICE.

Visual memory and mental pictures.

Suggestions for Method.—Only memory drawings should be made in this practice. Use simple forms without ornamentation to begin with, in order to train men in observing the more essential details first. The instructor should not allow more than two or three minutes for observation, and on no account should the model be produced again for inspection once it has been withdrawn, until each member of the class has made a completed drawing. In later exercises, in this practice, the instructor should test the permanency of the mental pictures acquired, by setting the class to make memory drawings without previous observation. In these exercises the pupil selects the object he will draw.

THIRD PRACTICE.

Observation and appreciation of colour.

Suggestions for Method.—The exercises in this practice should be co-ordinated with those in the previous practices, and the class should to each exercise make completed drawings of the models. The first exercises should aim at distinctness in colour, e.g., the green of leaves, grass and flowers, the red of fruit, etc. Later exercises should be devoted to the blending of tones.

FOURTH PRACTICE

Elements of composition.

Suggestions for Method.—The first exercise in this practice can be given with the actual models, each pupil arranging for himself a number of objects according to his taste.

of the class can then be compared with the great master painters of the past, and compared with photographs of classic
